

SUGGESTS CHANGES IN CURRENCY BILL

UNTERMYER GOES TO THE VITAL
POINTS OF BILL IN OF-
FERED REVISIONS.

COMMERCIAL PAPER "LOOSE"

Says Definition in the Bill Is Not
Enough—Restricts
Commodities.

Washington, Sept. 29.—General revision of the details of the administration currency bill to insure the carrying out of the purpose of the measure was recommended to the senate banking and currency committee today by Samuel Untermyer of New York. Many of the changes proposed by Mr. Untermyer went to vital points of the bill.

Criticism was made of the bill's definition of "commercial paper" on which currency would be issued "as loans and unrestricted." Mr. Untermyer declared lines should be strictly drawn to allow the issue of currency only on commercial paper representing the purchase or sale of a commodity which would enter into commerce. He recommended allowing the proposed regional reserve banks to discount a wider range of paper than would be eligible as a basis for currency.

Plan for Reserve Banks.

Mr. Untermyer also recommended altering the plan of organizing the proposed regional reserve banks. He would give the national banks ninety days in which to subscribe the capital and deposits for the regional banks and if it was not forthcoming would throw the stock books open to public subscription, closely restricting the powers of the subscribers in controlling the bank. This plan, he said, would tend to force the banks to enter the system.

The bill as at present framed, Mr. Untermyer claimed, gave the banks themselves too much power in the organization and control of the proposed new system. He recommended that the proposed "advisory council" of bankers, as an adjunct to the federal reserve board, be abolished, and that the government be given closer powers of regulation and removal over regional reserve directors elected by the banks. He urged, however, that the banks be given a flat profit of 5 per cent on their investment in the regional banks and that the government be given all profits above that figure.

The right of the regional banks to enter the open market in competition with the member banks is absolutely necessary, he said, in order that the regional banks might control and maintain the rate of discount which the bill gives them the right to fix.

Objects to Asset Issue.

Mr. Untermyer disagreed flatly with an scheme advanced by Senators Reed, Hitchcock and Brister under which the government would issue currency directly to the individuals using their assets up to 75 per cent of their capital stock, with a provision for a 50 per cent gold reserve.

This plan, he said, would be ineffectual and impracticable.

With the senate committee has settled down to continue detailed hearings on the currency bill, which will cover several weeks. The committee has been unable to agree on any limit for the hearings.

Becomes Prisoner to Study Conditions

Auburn, N. Y., Sept. 29.—Thomas Mott Osborne, chairman of the state committee for prison reform, tonight is self-imprisoned in a cell in Auburn prison. His first day in prison for the purpose of studying the effect of the system on the human mind, closed at 5 o'clock tonight when the light in his cell went out and under the rules all became silent.

For supper Mr. Osborne, who has assumed the alias of Thomas Brown, and a tin cup of coffee and half a dozen slices of bread, were served at breakfast tomorrow he will take his assigned seat with the convicts in the mess hall at 6 o'clock and have rolled oats with sugar and milk and bread and coffee. He will work in the basket shop for a few days, it was said at the prison.

Every detail of prison routine is being adhered to and officers and inmates have had no difficulty in losing the real identity of the man who has come into their midst to learn first hand of the conditions that prison reformers have to face.

ANOTHER NEGRO RIT VICTIM DIES

Harrison, Miss., Sept. 29.—Another victim of the Sunday riot died here today, bringing the death list up to eleven. Three white and eight negroes, Homer Alkin, a negro, succumbed to wounds he received at the hands of the two Jones brothers, who began the riot which ended when they were lynched.

Officers here, in trying to find the real cause of the riots, today worked on the theory that the Jones brothers were advised to begin their reign of murder and in their drugged condition readily acquiesced. It has been predicted that if the mother of the boy should be brought back to her home from which she fled when the shooting began, she might be summarily dealt with. She was captured at Port Gibson, Miss., early tonight. It has not been decided whether to bring her back here at once.

Detectives also are investigating John Prophet, a negro of Champaign, Ill., who recently came here and was seen with the Jones boys a great deal. He with Robert Patton, another negro, is in jail.

Age and Run-down Condition From
Labors During Extra Session of
Congress Against Recovery.

MAN FOUND DEAD NEAR DALLAS BELIEVED TO HAVE BEEN S. M. STALLINGS.

FOUL PLAY IS SUSPECTED—HE RECEIVED Decoy Letter to Go to Dallas.

Contention Over Removal of Picture From the Capitol

Austin, Sept. 29.—Already there has
been some contention over the
removal of the picture of General Sam
Houston from the capitol. The pic-
ture was formerly hung in the senate
chamber and was taken down to make
a place for a painting of Senator Jo-
seph Weldon Rusk. Artist W. H. Gordon
of Houston claimed the ownership of
the picture of General Houston and
planned its removal.

Today, however, Superintendent of
Buildings Conley received a letter
from James Bledsoe of San Marcos,
Tex., claiming the picture was his own
and to request that it be returned to
him. The picture was not allowed to be
moved from the capitol.

Los Angeles, Sept. 29.—Geo. H. Bix-
by, millionaire of Long Beach, Calif.,
charged with having contributed to the
downfall of minor young women,
contending that he owned the picture.
The case was given to the jury at 5
o'clock this evening.

In charging the jury Judge Benj.
F. Bledsoe of San Bernardino county
instructed the jury to disregard the
allegations of conspiracy made by
Bixby himself on the witness stand
and to convict him if he were deemed
guilty beyond a reasonable doubt of
the offense charged against him.

This offense related to the million-
aire's alleged relations with Cleo Hel-
len Barker, the 19-year-old girl, and
one of three young women who have
sued him for an aggregate of \$150,000
damages.

These suits figured prominently in
Bixby's statements on the witness
stand and were part of the ground
work for his defense that he was the
victim of a conspiracy to blackmail.

Adolphus Busch Decorated.
Mainz, Germany, Sept. 29.—Adolphus
Busch of St. Louis, was decorated to-
day by the grand duke of Hesse, with
the cordon and cross of the first class
of the order of Philip the Good, in
recognition of his philanthropy to the
people of Germany.

Street Car Collision.
Fort Smith, Ark., Sept. 29.—Five
persons were injured, two seriously, when
two street cars met head on in a heavy
fog here this morning. The most se-
riously hurt are Quantrell Blackwell and
O. H. Smith, who were injured internally.

Washington Forecast.
Washington, Sept. 29.—Waco and
vicinity—Fair Tuesday, except show-
ers near the coast; Wednesday fair,
cooler northwest portion; light to
moderate southeast winds on the
coast.

Local Temperatures.
State of thermometer and barometer
yesterday, as recorded by Dr. Block:
Maximum 83.5, minimum 58, barome-
ter 29.98, humidity 80. The total wind
passage was 46 miles, the highest ve-
locity being 4 miles an hour, which
was noted between 3 and 4 p. m.

Colwell Makes Proposition.
The long missing Fred L. Colwell,
the governor's alleged "dummy," in
Wall Street transactions, is in a sat-
isfied mood according to reports from
the governor, but will consent to testify
as the governor's witness under stipu-
lation that he not be placed under ar-
rest for refusing to obey the subpoena
of the Frawley investigating commit-
tee.

The managers had not decided to-
night whether to agree to this stipula-
tion.

If a subpoena can be served upon
him, J. B. Gray of the stock exchange
firm of Fuller & Gray, where the gov-
ernor is alleged to have speculated
with some of his campaign contribu-
tions, will be a witness tomorrow.
Thus far counsel have been unable to
locate him. His partner, Arthur L.
Fuller, who was on the stand today,
said Mr. Gray had been making no
effort to evade service.

Fuller and his employees gave testi-
mony today tending to show that Col-
well had purchased 300 shares of Big
Four stock through Fuller & Gray,
for which was paid \$17,000 in cash.

Shows Sulzer's Account.
Melville B. Fuller, a testified, pro-
duced a transcript of Governor Sul-
zer's account with his firm (Harris &
Fuller) as brought out by the Frawley
committee. Counsel for the impeach-
ment managers made no effort to
prove the stock transactions shown in
the account as had been done in the
case of M. R. Fuller's examination be-
fore the Frawley committee. They
merely brought out that during Nov-
ember and December of 1912, Gov-
ernor Sulzer paid into the account
\$18,000 in cash.

Just at the close of the session to-
day the assembly managers intro-
duced evidence a bank account
of Hugh J. Reilly, a contractor and
railroad builder for the Cuban gov-
ernment, who recently announced that
he had loaned Governor Sulzer \$25,000
in cash. Reilly had relations with
Sulzer when the latter was chairman
of the foreign affairs committee in
congress. He may be a witness to-
morrow.

COLQUITT AT PANAMA.
Colon, Panama, Sept. 29.—Governor
Oscar B. Colquitt of Texas and his
wife and daughter and party arrived
this afternoon on the steamer
Pala-Mina from the United States.
They expect to remain here a week
sightseeing along the canal.

Practically no change in the weather
today for Waco may be expected,
according to Dr. L. Block, local volun-
teer observer. The readings up-
which the forecast is based are the
same as those upon which the fair
weather forecast for yesterday was
accurately reckoned.

State of thermometer and barometer
yesterday, as recorded by Dr. Block:
Maximum 83.5, minimum 58, barome-
ter 29.98, humidity 80. The total wind
passage was 46 miles, the highest ve-
locity being 4 miles an hour, which
was noted between 3 and 4 p. m.

TWO OBJECTIONS TO CHARTER

STATED BY LOUIS MIGEL IN MINORITY REPORT FILED.

DOCUMENTS TO BE PRINTED

Both Reports Will Go to the Printers Immediately if City Commission Honors Request.

Because only one-third of the members of the general committee of thirty on new city charter responded to the call of Chairman A. R. McCollum for the first meeting of the general body since the draft of the important document was completed by the sub-committee, the charter was not taken up for consideration last night. The chairman took occasion to express his surprise at the absence of so many of the members and directed attention to the fact that notice of this meeting had been repeatedly published in the city press since the call was issued. The one feature of general public interest which marked the proceedings last night was a minority report submitted by Louis Migel of the sub-committee, which prepared the draft of the new charter. Mr. Migel refused to concur with his associates of the majority in the charter they agreed upon because he was opposed to the incorporation of those articles which provide for a paid fire department and a public service commission. Migel Asks a Fair Test.

The minority report was filed after Mr. Migel had requested that it be carefully considered by the whole committee and signifying his willingness to withdraw his objections and unite with the majority provided a fair, impartial and thorough test of the merits of his proposition be made.

Reorganization for the work in hand was effected at last night's session by the election of Joseph G. Wren as secretary of the general committee. Mr. Wren first nominated Joseph E. Fee for the office, but Mr. Fee requested the withdrawal of his name, pleading that the press of other duties would make it inconvenient for him to serve. Mr. Hirschfeld then placed Mr. Wren's name in nomination and he was elected by a unanimous vote.

Chairman Praises Workers. Chairman McCollum, in a brief address reviewing the work of the sub-committee, recalled that the body of

FOODS ARE ROBBED OF MINERAL VALUE

Cause Many Fatal Ills Says Scientist. Why Vitalitas Is So Widely Effective.

Present day foods do not properly nourish the body according to a noted physician and scientist. They are robbed of their mineral value, by refining, polishing and so-called purifying processes. The result is malnutrition and many deadly ill-effects such as tuberculosis, indigestion, nervous debility, biliousness, constipation, appendicitis. Decayed teeth are one of the minor afflictions.

There is no surer road to ill-health than in mineral starvation. Proof that modern prepared foods lead to this is abundantly shown. For instance whole wheat, as formerly eaten, contains 175 parts mineral body, while patent milled flour has 44 parts, less than one-fourth. Unhulled rice contains 441 parts mineral body, while polished rice such as sold at our grocers has 39 parts less than one-eleventh of mineral nutriment. Brown sugar contains 139 parts nutriment, while refined sugar has only a trace—practically none. The same showing is true of dozens of other daily used foods, and the result is mineral starvation.

In this connection it is worth noting that Vitalitas, the new earth liquid, contains all the true organic minerals of the human body. It supplies them to weakened, impoverished and diseased tissues in a natural way. Vitalitas sweeps such diseases from the system as indigestion, biliousness, rheumatism, nervous debility, catarrh, kidney and liver ailments and derangements of bowels and blood. It is marvelously effective. The most delicate invalid may take it. It is fully guaranteed. Investigate it today at Powers-Kelly Drug Co.

MRS. REUTER WILL DENY.

Woman Will Disclaim All Knowledge of Murder Plot.

Bartlesville, Okla., Sept. 29.—The trial of Mrs. Laura M. Reuter, charged with complicity in the death of her husband, Charles T. Reuter, a Tulsa attorney, will deny all knowledge of an alleged plot to kill Reuter, according to the opening statement of the defense today.

Guy McKenzie and Joe Baker are serving life sentences for the crime. Mrs. A. D. Fortier of Peoria, Ill., sister of the slain man, today told of a visit Mr. and Mrs. Reuter paid her shortly before the killing. "Mrs. Reuter told me Charlie had been so mean to her that she wouldn't have cared had he died during an attack of typhoid fever," she testified.

DOUGHTY APPOINTS JAY.

Rusk Man Made Member of Board of Examiners.

Austin, Sept. 29.—C. A. Jay of Rusk county was today appointed a member of the board of examiners by State Superintendent of Public Instruction Wm. M. Doughty. Mr. Jay was county superintendent of Rusk county and will assume his new duties on October 1. T. J. Watson was elected to fill the vacancy created by Mr. Jay's resignation.

Riots in Belfast.

Belfast, Sept. 29.—While a protestant regiment was embarking for India today the soldiers sang songs objectionable to the nationalists and lively riot ensued which was quelled only by the free use of clubs by the police.

Sunday School Workers Meet.

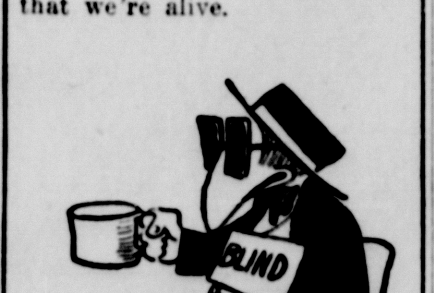

Cheburne, Tex., Sept. 29.—District Sunday school workers convened here this afternoon in a local Methodist church. Ten counties are represented by large delegations and other delegates are expected this evening.

Medical inspection is a business proposition. In a town with 250 children it is said for instance, there would be an annual saving of \$5,250 if by thorough medical inspection the curable physical defects that handicap school children could be remedied.

For parcel post purposes there has been invented a bag sewed to the bottom of which is a flat tag for address and stamp.

"Doc Bird Says"

We all see people every day that should make us thankful that we're alive.

And able to do our full duty at the famous Soda Fountain of Powers-Kelly Drug Co., where they have a full luncheonette with such dainties as Lunch Crab, Olive Nut and Anchovy Sandwiches, Faust Blend Coffee and Whitman's Hot Chocolate.

HULL EXPLAINS THE INCOME TAX

FRAMER OF MEASURE TELLS HOW AND WHEN TO PAY.

PREPARE FOR QUESTION FLOOD

Treasury Department Will Send Out Blanks for Distribution; Also Information.

Washington, Sept. 29.—The treasury department is preparing for a flood of questions concerning the new income tax, realizing that this feature of the tariff bill about to become law strikes more intimately at the tax-paying citizen than do the indirect taxes collected through customs duties.

One of the first steps taken to get general information before the public will be to distribute income tax blanks through postoffice, internal revenue office and other federal agencies.

However, the fact that he does not receive the blank or request to pay the tax will not exempt a taxable person from the penalties of the law.

Representative Cordell Hull of Tennessee, who drew the income tax provision of the tariff bill, today made public a detailed explanation of the plan as it will touch the individual citizen.

"The treasury regulations soon to be prepared will make clear to every taxpayer the requirements of the law and its application to income derived from the various kinds of business," said Mr. Hull. "Any person who keeps familiar with his business affairs during the year should have no difficulty in executing his tax returns."

Divided Into Two Phases.

"The income tax is divided into two phases, the normal tax and the additional tax. The normal tax is 1 per cent on the whole income above \$3,000 and the additional tax on the extra 1 per cent above \$20,000 and is graduated to 6 per cent for \$500,000. Wherever the income tax is paid 'at the source' by a corporation for its employees or in similar cases, only the 1 per cent normal is so paid. The individual has to pay any additional tax himself. The provision of the law requiring the tax to be withheld at the source does not take effect until November 1, 1913.

"For the first year the citizen will make return to the local internal revenue collector before March 1, 1914, as to his earnings from March 1, 1913, to the end of this year. The collector will notify him June 1 how much he owes and the tax must be paid by June 30. After next year the tax will apply on the full calendar year.

"If the income of a person is under \$3,000, or if the tax on income is withheld for payment at the source, or if the same is to be paid elsewhere in the United States, affidavits may be made to such fact and thereupon no return will be required.

Foreigners Taxed.

"The tax covers the income of citizens of the United States, whether living here or abroad; those of foreigners living in the United States and the net incomes from property owned or business carried on in the United States by persons living abroad.

"The 'net income' includes all income from salaries or any compensation for personal services; income from trades, profession, business or commerce; from sales or dealings in personal property or real estate; from interest, dividends and securities from all lawful business carried on for gain.

"Gifts or bequests will not be considered income; nor will life insurance paid to a beneficiary or returned to the insured person as a 'paid-up' policy. It was pointed out that the interest on such policy will be included as income, however.

"The amount that may be deducted from a total income includes the cost of carrying on business, actual losses, depreciation allowances and tax expenses on tax paid money. Living expenses cannot be deducted, nor can money spent for permanent improvement to property.

"The form that is to be filled out by the taxpayers will be drawn up soon by the commissioner of internal revenue. The taxpayer will have to give his gross revenue and then specify and claim the deductions which he feels entitled. Unless a man's income tax is 'paid at the source' he must hunt up a tax blank, fill it out and see that it finds its way to the first of March, 1914.

"Firms, corporations and the like, having the handling of interests, rents, salaries or other portions of the income of any citizen are compelled to deduct the tax for the individual and pay it to the government. The individual will then get a receipt showing he has paid his tax."

ATTEMPTS TO ROB TRAIN.

Detectives Frustrate Efforts of Two Hold-Up Men.

New Orleans, Sept. 29.—It is reported that an attempt to hold up a fast Louisville and Nashville passenger train between this city and Bay St. Louis, Miss., late tonight was frustrated by detectives and that two men were arrested. Information of the plans of the robbers, it is said, got to the police before the train left New Orleans.

Banker Is Paroled.

Leavenworth, Kan., Sept. 29.—Wm. Marker, a banker of Tipton, Ind., who was brought to the United States prison here in 1909 to serve a sentence of five years for misappropriation of bank funds, was released on parole today. He and his brother, Noah Marker, were convicted of embezzling a large amount of money from the First National bank of Tipton. Noah was paroled about a year ago.

Malaria and other diseases have been materially reduced at Jerusalem by sanitation methods introduced by an American.

EXPLANATION OF IRRIGATION ACT

ATTORNEY GENERAL'S DEPARTMENT CONSTRUES NEW LEGISLATION.

TOUCHES ON FEDERAL LAWS

Navigable Rivers Under Jurisdiction of Congress by Virtue of Commerce Clause.

Austin, Sept. 29.—The attorney general's department today rendered an opinion to the board of water engineers constructing several phases of the irrigation act passed at the regular session of the Thirty-third legislature.

The board was advised that a river is navigable in the federal sense when it forms in its ordinary condition by itself or by uniting with other waters a continued highway over which commerce is or may be carried on with other states or foreign countries in the customary modes in which such commerce is conducted by water, and that in order for such river to have the character of a navigable stream it must be generally and commonly used to some purpose of trade or agriculture. It was pointed out that a river may be a navigable river of the United States even though it lies wholly within the bounds of the state.

The attorney general advised the board that the Rio Grande river and all of the other navigable rivers of Texas are under the jurisdiction of congress by virtue of the commerce clause of the federal constitution, and that by the act of congress of March 3, 1899, the erection of any dam or other structure in or across any navigable river of the United States not wholly within the bounds of a single state is prohibited unless the consent of congress to its erection is obtained and the plans for same are approved by the chief of engineers and by the secretary of war.

The board was advised that the acts of congress are the supreme law of the land and that these acts must be recognized by the board and that whenever an application to appropriate water from any of the navigable rivers of the United States is submitted to the board and such appropriations involves or contemplates the erection of a dam or other structure in such river or would create an obstruction to the navigable capacity of the river that the application should be rejected unless the applicant furnishes to the board satisfactory evidence that he has obtained the consent of congress, it being only necessary, however, in case the application affects a navigable river wholly within the bounds of this state, and that the plans be submitted to and approved by the chief of engineers and the secretary of war.

The department held that in Texas a riparian owner may use water from the stream for the purpose of irrigating his riparian land, as well as to supply his natural wants and domestic uses, the right to use the water for irrigation, however, being limited to a reasonable use, having regard to the rights of others.

To Fill Sullivan's Vacancy.

New York, Sept. 29.—George W. Left, a manufacturer, tonight was nominated by the democratic congressional committee of the Thirtieth district as the party candidate to fill the vacancy caused by the death of Timothy D. Sullivan.

BODY IS IDENTIFIED

Continued From Page 1.

that Stallings obeyed instructions contained in the letter, as the remains were found about fifty yards from a little more back this way from the stop.

The condition of the body is such, however, that the nature of the wounds which caused death, if it was murder, will never be known. There are some discolorations about the head and it may be that blows on the head caused death. When Sheriff Brandenburg was notified of the developments in the case he and Chief Deputy Murphy immediately began work on the matter with renewed activity and he will leave tomorrow to see that they tell anything of the robbery that may throw any light on the mysterious case.

The sheriff is satisfied that robbery was not the motive, as about \$2 in cash and a gold watch was found in the pockets of the clothing worn by the unfortunate man.

Body Found Saturday Night.

The badly decomposed body of the man was found Saturday night lying in a field just off the Greenville road near the Belmont addition north of the city. The remains were in such a terrible condition of decay that it was difficult to identify the body, but it was found that the man had evidently been dead for five or six days before that it was hard to tell anything of the general appearance of the man. His features were practically gone as a result of exposure to the rain and elements and little was found about the person that might throw any light on who he might have been.

In the sweatband of a hat found near the body were the initials "S. M. R." but the two letters "H. C." were engraved on a gold watch that was found in one of his pockets. The initials in the hat are similar to the initials of the man said to be missing from Fort Worth.

A bank book found in one of the pockets, the writing in which was almost obliterated by dirt and water, was found in the clothes Sunday, when a more thorough search was made. It was also learned that the man had evidently been ruptured or suffered from some abnormal trouble, as he wore a truss.

Waterway Convention Postponed.

St. Louis, Sept. 29.—G. B. Logan, secretary of the lakes-to-the-gulf deep waterway convention, announced today that the convention to be held in Peoria has been postponed from the week of October 12 until the middle of January. The exact date has not been determined.

Major McDowell Ill.

Uniontown, Pa., Sept. 29.—Major Alexander McDowell, Sept. 29.—Major Alexander McDowell, for seventeen years clerk of the national house of representatives and prominent in republican politics, was seriously ill at his home here. Major McDowell, it is learned, has been confined to his bed three weeks. He is supreme treasurer of the Protected Home Circle.

Health and Beauty Advice

BY MRS. MAE MARTIN

G. H.: Your friend was right when she said you can dissolve the fatty tissue that ruins your symmetrical figure if you use simple paraffin for a while. To prepare, dissolve 4 ounces paraffin in 1 1/2 pints hot water and when it cools take a tablespoonful before each meal. You will require no dieting or rigid exercising and while paraffin quickly removes the hideousness of fat, it in no way disturbs the figure. When you are in a healthy condition you want it, you can safely discontinue the treatment and your skin and flesh will be smooth and firm.

Mrs. A.: It is foolish to countenance that fatty growth on your chin. Get small, original package of delatone and with a little water mix enough of the powder to make a thick paste, then spread on hairy surface. After 3 or 4 minutes, rub off, wash the skin and it will be free from hair or blemish. Be careful it is delatone you use.

Anna: As I have before said, an excessively oily scalp or one covered with dandruff, indicates a diseased condition which eventually causes the hair to lose its life and lustre and then fall out. The recipe for my quinsin hair tonic I am giving you will correct these faults and the figure. When you are in a healthy condition you want it, you can safely discontinue the treatment and your skin and flesh will be smooth and firm.

Hope: You are quite right, powder does not protect the skin. It smother the small pores and causes many complexion troubles. I have found the very best thing to use is a home made spumal lotion prepared as follows: In 1/2 pint witch hazel or hot water, dissolve 4 ounces spumal, then add two teaspoonful glycerine. I apply sparingly after washing and drying the skin and am always delighted with the rose-tint and velvety smoothness my complexion assumes. This spumal lotion is ideal for hot, windy days, because it really protects the skin and assists nature in its beautifying process.

Florence: Your hair will regain its

rich lustre and soft fluff if cleaned occasionally with a mild shampoo. The best thing I know of for this purpose is plain castor oil, a teaspoonful of which is dissolved in a cup hot water is sufficient for the thickest growth of hair. Cantharides, a wonderful amount of thick, white lather that cleanses and exfoliates and insures a healthy condition. Dry, itchy or profusely oily scalp is created by pouring 1 ounce kerosene into 1/2 pint alcohol (do not use whisky) and shaking frequently with cantharides and dull, "stringy," brittle hair grows bright and even in color and will be ever so soft and fluffy.

Laura: I thank you very much for both cured and beautified by a crystal eye-tonic, made by dissolving 1 ounce crystals in a pint cold, clear water; then, put 2 or 3 drops in each eye occasionally for a few days. This will relieve the smart and ache and is very restful to tired eye muscles. The crystals eye-tonic is absolutely harmless and should be kept handy to use when you get any foreign particle in the eye.

Christine: Your yellow, yellow skin indicates a liver used and if I were you I should make up and use the choline hardened blood, kidney and liver tonic. This is prepared by pouring 1 ounce kerosene into 1/2 pint alcohol (do not use whisky) and shaking frequently with cantharides and dull, "stringy," brittle hair grows bright and even in color and will be ever so soft and fluffy.

Corra: I cannot say what caused the wrinkles and lines in your skin—probably extreme dryness. Here is a preparation which I make up for myself and which quickly removes the wrinkles and restores the softness and natural tone to the skin. Get an ounce of alcohol at the drug store and dissolve it in 1/2 pint cold water, adding two teaspoonfuls glycerine. Apply before retiring and leave overnight. This will remove wrinkles, prevent freckles and make your face soft and shiny. It clears and whitens the skin, too, and you feel and see the effect immediately.

TRAVELING AGENTS.

Following are the traveling agents of The News, who are authorized to solicit and receive for subscriptions, advertising, etc.: W. W. Lewis, F. E. Long, W. H. Byrd.

A GREAT CONGRESS.

"Breaking all records of conventions in Detroit," according to that city's press, the American Good Roads Congress convened in Detroit yesterday, to sit 'til October 4, and 6,500 delegates will participate in the third annual meeting, lending their weight to the movement for better roads throughout the United States and Canada.

"The congress will be international. Governors from many states, congressional highway commissioners and railway officials will be numbered among the guests and more than one hundred manufacturers of road materials and machinery will conduct exhibits at the Wayne Gardens. The good roads organizations interested in the congress have one hundred thousand members. Each governor has appointed delegates from each congressional district. From the 435 congressional districts in the United States, the mayors of 2,465 cities and towns of a population of 2,500 or more have appointed three delegates each, a total of 7,215. Each commercial organization of the United States has appointed three delegates; there are 1,500 of these commercial organizations. Each county of each state of the United States, of which there are three thousand, has appointed three delegates, a total of nine thousand."

Here is a congress of relatively a great value to the nation as the assembly in Washington elected to work in the interests of the body politic. The results of the Detroit session should and doubtless will be followed as closely as the doings in Washington. The government congress does not always enjoy popular co-operation and endorsement in its acts; the good roads congress of the nation has known such endorsement from its beginning and is steadily widening the scope of action on its recommendations.

Sing the Third Psalm.
Photographs of the four announced candidates for the Texas governorship—Will H. Hays, W. P. Lane, W. A. Hanger, Chester H. Terrell—Dallas Times Herald.

"Lord, how are they increased that trouble me! Many are they that rise up against me." Indeed, it is the "ten thousands of people round about" that gives us to be afraid, despite the psalmist. For some of them will vote for the one and some will vote for the other, each of them—and one of the four, if no David arises, will get the most votes.

HILLSBORO, WACO AND THE INTERURBAN.

Waco and Hillsboro are the most important of the communities on the Waco-Dallas interurban line south of Waxahachie. Waxahachie has been the pivotal point in the joining of Central Texas and North Texas by this service that has come to be an indispensable factor in modern trade and travel among a region's communities. It is rather a question of months than of years 'til there will be continuous interurban lines from Red River to Gulf. Much of Central Texas, by the line that will be inaugurated today and put into service publicly tomorrow, is already fortunate. Connection of Waco with Temple and the towns interlying, connection of Temple with Austin, connection of Austin with San Antonio ultimately are promised and the feeling in this region is assurance of performance.

The Waco-Dallas-Corsicana interurban today has arrived for Waco, Elm Mott, West, Abbott, Hillsboro, Milford, Italy, Forrester—thence through Waxahachie along the older line to Dallas. The country between these several stations also will be served by "locals." The original schedule is convenient and the equipment is known to be of comfortable

type. Central Texas has the interurban, then, and will celebrate its advent as so important a day in the region's development deserves. Passenger and freight service alike, if used to the utmost of the opportunity by business interests of this region, will mean substantial increase in the revenues of Waco, the trade center. Here is opportunity to reach the country community, the farmhouse and the neighbor city. Here is hourly service for travel between the towns of something more than 100 miles of territory and, more especially, here is convenient facility of travel that will knit the communities of three central counties more closely.

Waco and Hillsboro will give today mutual hospitality, their citizens common hospitality in happy celebration of the completion of this tie. Waco citizens, members of the commercial bodies who have labored long to put their city in position to achieve this great developer, will go to Hillsboro, be heartily received and return with the Hillsboro, West and other towns' folk for a reception and demonstration here. All in the city of Waco should participate in this greeting to the first car of the Central Texas interurban, and to their neighbors whom the coming of this car makes even closer neighbors.

Let Nebraska Worry.
Senator Hitchcock and Secretary Bryan are about to clash over Nebraska appointments. The senator holds that the appointments regardless of Mr. Bryan—Springfield (Mo.), leader.

Next to Mr. Townsend, Senator Hitchcock is our senate's best little amateur chaser. And Mr. Bryan is next to none in aptitude and appetite for dictating appointments. Nebraska is his home and federal appointments in Nebraska he will have as his to command. He has property in Texas—but perhaps that is not the reason the white hand of Bryan has put forth from the patronage bought in Austin and other Texas hamlets. We will be tickled to see the senator and the secretary clash. When the Titans of office dictatorship fall out Mr. Wilson may be forced to give more congressmen a show.

COMBINE THESE OFFICES.

It is reported the mayor will appoint to the offices of city physician and city chemist as soon as the incumbent of the latter returns to Waco from his vacation. The chemist has been absent two weeks. These appointments were due in April. The city chemist is also bacteriologist for the city in line with his duties as inspector of food and milk. It is ordained he shall "devote his entire time to the enforcement of all laws, federal, State or municipal that are now or may hereafter be, in force in the city of Waco, having for their purpose the securing and assuring to the public pure food, drink and medicine."

Milk, meat, soft drinks, the dishes served in restaurants, fruit, vegetables, ice cream, bread are a few of the "human foods." That is an high sounding ordinance. The mayor knows whether the milk and food inspector has devoted his "entire time" to his duties. Commissioner Abbott, at Austin, knows whether the local inspector has enforced State and federal laws here.

We have given some notice to the status of local dairies with regard to the ordinance requiring annual inspection by this official, to be followed by license issued by the city secretary.

We renew our suggestion to the mayor and commission that the office of city physician—city "health officer"—and the office of food and milk inspector—city chemist and bacteriologist—be combined. We hope this suggestion will be adopted. We hope a physician will be appointed to the one office who is educated in the theory, the practice and the need of those activities legitimately attaching to such an office—in sanitation, in medicine, in surgery, in analysis, in chemistry, in bacteriology and in the food laws of congress, the Texas legislature and the Waco commission.

We hope this official will be paid a salary deserved by this needed competency—\$225 the month, which is the sum now paid both the physician and the inspector, would not be too much. The city commission knows whether or not an official salaried at \$100 or \$125 the month is going to "devote his entire time" to his official duties, especially if he follows a profession.

We hope this official will be required to have his office in city hall, distribute his time in necessary proportion among the duties of food inspection, medical attendance and surveillance of health conditions generally, and be accessible at all times to the public and the authorities.

This suggestion is made for the good of our public service and in the interests of all the citizens. An office so vitally important to the work of protecting the public health should be stripped of political considerations down to the slightest duty. This is more than a question of having two

jobs to bestow instead of one. The public health officer is the most indispensable factor in local government. It is a very simple matter for the commission to combine these offices by ordinance and fix a salary worthy the hire of a capable man informed in modern methods.

We ask the commission to act in the city's behalf. This is a question of public policy, not politics.

Certainly.

For is not a maiden fresh as the morning when the dew is on, is she not as fair as the effulgent moonbeams, clear as the transparent sun, and will not any youth tell you that she is more terrible than an army with banners? She fills him with awe and fear that no one else can. The Rev. A. D. Porter, of Morrow Street.

She is, she is, he will, she does, Pastor. We and the pastor, married though we be, know that a maiden of that sort is to an army with banners what a company of American high school cadets would be to a squadron of Mexican irregulars.

A. M. A. JOURNAL ON THE SPREAD OF LEPROSY.

The presence of leprosy here and there in the United States is held by some to be of little consequence in comparison with the occurrence of other diseases, such as tuberculosis and typhoid fever. Nevertheless, it is a menace to the public health and deserves special consideration because of the possibility of the spread of the infection, the hopeless nature of the disease and the aversion of the public to persons so afflicted. While the spread of leprosy in recent years has not been marked, it must be remembered that cases of the disease have developed from time to time in American-born persons, some of whom had not been outside of the United States. Of 278 lepers reported in 1901, 145 were American-born, according to Surgeon-General Blue of the United States public health service, who discusses this question in a recent issue of the Journal of the American Medical Association. By reason of our interests in the Philippine Islands and other possessions, there is danger of the introduction of leprosy by returning American citizens. Large numbers of soldiers, sailors and civil employees spend prolonged periods abroad, particularly in the Philippine Islands, where there is decided danger of contracting the infection. This disease may not manifest itself on these persons for years after their return. These facts taken in connection with our knowledge of the rise and fall of epidemics in the past suggest the possibility of a greater prevalence of the disease fifty or one hundred years hence, unless appropriate preventive measures are instituted. Leprosy should not be regarded as of no importance, neither should it be an object of unreasonable aversion on the part of the public. Education is necessary to overcome this feeling. Public health officials and physicians should systematically teach the people the nature of the disease, the extent of its contractibility, and above all, the humane treatment that should be accorded lepers. Every case of leprosy should be promptly reported to the proper health authority and, whenever necessary, the laws should be so amended and penalties provided for non-observance. All lepers should be isolated to prevent the spread of the disease, but this should be so done as to promote the comfort and happiness of those so afflicted. On account of the difficulty of providing these conditions in towns, counties and states where single cases of leprosy occur, and because of consequent inadequate methods of control, there should be established under the United States public health service a national leper home for the care and treatment of such cases as may be turned over by state and local health authorities for the purpose.

Out of Your Line, Beas.

The Girl Who Refuses to Be Kissed—Beatrice Fairfax.

Miss Bareface is becoming too ambitious. She should confine her advice to heart matters, in which she affects to be omniscient, and not encroach on the province of the psychopaths.

If Porfirio Diaz has been ordered back to Mexico to endorse the candidacy of Sr. Gamba the ambition of Porfirio's nephew in this line will be sacrificed. Blood, to be sure, is thicker than water, but the stone wall against which obstructions of Mexican political policies are shot is thicker than either, and General Diaz is in better position than any Mexican to counsel Felix thus.

The husband of a Chicago dancing teacher is accused of murdering her. That is shocking. If the wife of a Chicago dancing teacher were accused of murdering him, some persons who know some kinds of male teachers of dancing would resent it if the woman were even indicted.

Well, it has been decided finally that New York's young shall not be lured by "The Lure." As the bulk of New York's young does not run much to

Pinero, Sutro, Ibsen, Henry Arthur Jones and European playwrights with difficult names, anyway, we suppose New York's theatrical season will now proceed uninterrupted by further menaces to the young's morals and "sex suggestion" masterpieces will be a drug on the manager's market.

A Colorado man has had his stomach removed. Detroit Free Press thinks "he ought to make a fine dramatic critic for some New York newspaper. But why not go the whole way? Make him a press agent for the sort of musical show that, alas! in these days we must term "typical."

Those negro organizations that have decided to carry their attacks on "grandfather" clauses and "Jim Crow" laws of Oklahoma and Maryland to the federal supreme court need no brilliant counsel to advise them that they can make better use of their time and money right at home.

We trust if the pupils (not "students") of any Texas high school follow the example of the Syracuse youth and strike to have fraternities in the school, the school board either will let them go right on merrily striking or turn the matter over to the local probation officer.

The cotton futures tax amendment was a small bone of contention in the senate, but too small to cause the majority to choke on the tariff bill. It is become a large bone in the house, and the choking is good. We hope there will be an operation that will cast out this bone.

After reasonable lapse of time, developments in that Albany mixup justify the conclusion that the governor did not want Mr. Murphy brought before the court, the less, but wanted the whole business dismissed, the more.

If the constitutionalists carry out their plans to destroy Huerta sympathizers in Northern Mexico there will not only be fewer Huerta sympathizers in Mexico, but fewer Carranza sympathizers in the United States.

The newspapers are carrying reports of a "model farm" planned by a great American railroad. We will exchange 25 such reports for one report of a railroad abandoning wooden coaches for steel.

As between the manufacturers' lobby and organized labor's lobby at Washington, the public has weighed the evidence and has decided that Mr. Emery and Mr. Gompers are not in the same class.

The famous "wild" gas well in the Caddo field of Louisiana has been conquered. Now let the conquerors have a try at an element of the Mississippi populace.

Mississippi continues to hold her own with Ireland in the matter of public disturbances—but Ireland's is rather the more dignified trouble.

Hon. John Redmond continues to insist that the Irish nationalists who are asking for bread are being offered a gold brick.

Texas Viewpoints.

So It Was.

About that Austin Press Club, now Viewpoints is proved a true prophet and greatly entitled to honor even in his own territory. No less an one than State Press of the Dal-Gal News—who is also Pres. of Tex. Press and so speaks with a semblance of authority—presents the facts that bear out Viewpoints' prophecy. "The newspaper men of Austin," State Press writes, "have organized a Press Club (written by the aforesaid newspapermen), has bright prospects. The officers are: William M. Thornton, president; Jack A. Fernandez, first vice president; Lloyd P. Lochridge, second vice president; R. C. Lowrey, secretary; W. A. Philpott, treasurer. The board of governors consists of the three officers first named, and David C. McCaleb, Asher G. Smoot, Edward S. Newton, A. G. Watson and R. W. Lowrance. With such bright boys to guide its destiny, of course the Press Club has a bright future. May it live long and keep out of debt. State Press would like to know, however, why William Dean Hornaday, the dean of the State capital press corps, didn't get an office." Pish tush! Even a Press Club has to have one or two members besides the officers. Viewpoints would like to know how State Press has the nerve to class the getting-venerable Lieut. Gen. McCaleb, Maj. Gen. Smoot, Brig. Gen. Fernandez and Col. Lowrance as "bright boys." Viewpoints admits he went wrong on Fernandez, whom he had picked for deacon of the refrigerator, and that Deacon McCaleb, not the handsome Bill Al Philpott, was his prediction for holder of the cashbox. Ole Lochridge, too, was not listed for office, as Viewpoints didn't

think the bunch would give out so many titles newspaper men as a rule being above such frippery. But the club has a most auspicious start. With an high-class collection of officers, eight glorious governors and Members Hornaday and Pricer, who shall say the Austin Press Club will not make a killing?

Business of Sneering.

Ablene Reporter writes of the "ill fortune" suggested as a cause for the disasters on the New Haven railroad, that it "does not believe in any such stuff. Poor and inefficient management somewhere is responsible for the record the road has against it. If it is true that the engineer who ran his engine into the standing train had only slept four hours out of the 24, it should not be hard to figure out where the blame rests and, mind you, we do not say it rests on the engineer. It is with the men over him who sent him out to work unfit for efficient service." Said by all of us at one time or another, and several times. The New Haven set a mark for cold-blooded dodging after the Stamford wreck when it was given out that none in any way connected with the road (in effect) was in any way to blame for that horror. The New Haven's president went before the Massachusetts commission and urged as a reason why a big issue of bonds should be permitted that the corporation wants to spend 7 millions in making the road safe for travel. Anyone who believes the road will spend 7 millions on betterments running to accident prevention unless the expenditure is forced by the commission had better dodge the county court if he does not want to reside in Austin. And what man not a dyed-in-the-wool, acclimated and resigned Austinite wants to do that?

There is Wet and Wet.
"All of Texas is wet for the first time in many a month," says Temple Telegram. "Up in this part of it they are going to plant oats as soon as it becomes dry enough to get into the fields." That is the one kind of wetness that all Texas has for the first time in many months; the other kind all Texas has not had, will not have and apparently does not want in many, many years—not merely months. So no part of Texas will do well to plant hops.

Glory Be!
"Assistant Attorney General Luther Nickels is pleased with the progress of the Katy suit." Take Austin Statesman's word and news columns for that. The zealous young servant of the State who is prosecuting these hearings before commissioner is pleased with his progress. Nothing else really matters, does it?

A Real Recommendation.
Waco claims that the tax rate in that city has been reduced by the adoption of the Somers system of tax assessments. This is a pretty good recommendation of the Somers system to the taxpayers.—San Antonio Express.

Well, Hardly Ever.
James T. Quarles has gone to Cornell University as usual, and Cornell University is playing the development tune at Waco. James T. may be able to get much out of big organs, but James Hays will never get a single point to him.—Austin Statesman.

Waco and The News.

Perilous Road Stretches.
The Red to the Rio Grande highway is now ready from Denison to Waco. True, you will have to use the interurban in getting through Collin and Hill counties, but you are lucky to be able to get through those counties at all.—Waxahachie Light.

Those Fearsome "Six Miles."
The Colorado-to-the-Gulf Highway will not be located through Riesel or McLennan county, and we believe the Southern Transcontinental highway is another good thing we might have had, but are not going to get. There are only about six miles of bad road between Waco and Marlin, three in Falls county and three in McLennan county. And these few miles of road, we believe, are the reason why so many of the autoists are going to give Falls and McLennan counties a wide berth.—Riesel Rustler.

Also, Bonham Favorites.
The attention of the Beaumont Enterprise and Waco Morning News is called to the fact that the Magnolia Oil company has just put up the price of oil and the price of gasoline also continues to advance, and that the price in Texas is now 2 cents per barrel more than is paid in any other state in the union. Begins to look as if the Texas folks were paying that old \$500,000 fine back, doesn't it?—Brenham Banner.

The Sullivan Memorial.
(Houston Post.)
The Waco News suggests that the tabloids of New York buy a bronze statue of the "Big Tim" Sullivan. They could perhaps do better than that by subscribing to a fund to carry on some of the dead man's charities to the needy.—Laredo Times.

Well, it is a good idea to preserve the memory of Sullivan in an appropriate way, it is hardly right to expect little newboys to contribute to the fund. Life to these children is filled with more suffering and hardship than is suggested by the casual observer, and it would be inconsiderate to require them to give of their meager earnings to this or any other undertaking which should be financed by the wise and more easily afforded means of the adult world. It is possible to consult "Big Tim" himself about the matter, there would hardly be a doubt that he would desire that any funds raised for the purpose should be given to the "newbies" or to others of the equally deserving poor.

The Proposed City Charter

The sub-committee of citizens engaged in the preparation of a new charter for the city of Waco has completed the draft of the document, which is to be submitted to the people later for their adoption or rejection. It is a lengthy document. Believing the people are interested in the charter, the Morning News will publish it in daily installments. These installments can be preserved and when the publication is complete the clippings will make a complete charter.

SECTION XIX.

Appointment and Duties of Treasurer.

Art. 95. The board of commissioners shall bi-annually by a majority vote select some bank or person in the city of Waco as a depository or custodian for all the funds of the city, which shall be known as "treasurer" of the city of Waco and such bank or person so selected shall be such depository for two years and until successor has been selected and approved by a majority of the board of commissioners at the expense of the city, for reasons deemed good and sufficient by them, which shall be spread at length on the minutes of said board.

Art. 96. Said bank shall, before selecting such depository, determine and fix a minimum rate of interest which it will accept, and advertise a reasonable length of time for bids by the banks in said city for the privilege of being made such depository, stating the rate of interest to be paid, and the bid therefor, provided it be as much as the minimum rate so fixed.

Art. 97. In case no bank shall bid as such bank, it shall re-advertise for a reasonable length of time for bids from any person who is a resident citizen of Waco for the privilege of being made the custodian of the funds of the city, and said board shall in that event award the custody of said funds to the highest and best bidder for such privilege.

Art. 98. Said bank or person, as the case may be, so selected shall be required before entering upon the duties as such treasurer, to execute to the mayor of the city of Waco and his successors in office, a bond with two or more good and sufficient personal sureties, to be approved by the board of commissioners in any amount required by said board, which shall not be in any event less than \$100,000, conditioned for the faithful performance of the duties as such treasurer of the city of Waco.

Art. 99. Said treasurer shall receive no salary and shall keep all money belonging to the city of Waco and shall pay out the same upon the warrant of the mayor, attested by the secretary, under the seal of the corporation, and countersigned by the treasurer, provided that no warrant shall be paid unless the same shall show upon its face that the board of commissioners has directed its issuance, and for what purpose issued.

Art. 100. The said treasurer shall render to the board of commissioners a full and correct statement of the receipts and disbursements of the money of the said city, showing the status of each fund at the first regular meeting of the board for each quarter and also at such other times as said board may require.

SECTION XX.

Duties of Assessor and Collector.

Art. 101. The assessor and collector shall make up the assessment of all property taxed by the city, and make duplicate rolls thereof, and on completion of the rolls shall deliver one of them to the city secretary.

Art. 102. He shall collect all taxes due to the city, both on real and personal property, and issue all licenses under such rules, regulations and limitations as may be prescribed by ordinance, and in the event of non-payment of any taxes shall proceed to enforce payment thereof as directed by ordinance or resolution of the board of commissioners.

Art. 103. He shall give bond in such amount and in such form as the board of commissioners may prescribe, with good and sufficient surety or sureties, and shall be required to give a new bond whenever he changes his office, and whenever such bond is required, he shall perform no official act until said bond shall have been given and approved.

Art. 104. He shall daily pay to the city treasurer all money by him collected and shall report to the board of commissioners at the first meeting in each month all money so collected and paid, and he shall perform such other duties as may be required by ordinance, and in such manner and according to such rules and regulations as the board may prescribe.

Art. 105. He is authorized to require the owners of all property subject to taxation to render a correct statement of the same under oath, and to this end he is authorized to administer such oaths.

Art. 106. He shall receive such salary for his services as may be fixed by the ordinances of the city.

SECTION XXI.

Auditing Department.

Art. 107. There shall be appointed by the public service commissioners an auditor of accounts and finances, who shall hold office for a term of two years and until his successor is appointed and qualified. He shall receive an annual salary of twenty-four hundred (\$2,400) dollars, to be paid out of the general fund of the city upon the order of the board of commissioners.

Art. 108. Said auditor must be a man of unquestionably good moral character and intelligence, thorough and competent in business details, and must also be a competent accountant who has had at least two years' actual experience in double entry bookkeeping and had practical experience in auditing and accounting.

Art. 109. Said auditor shall within twenty days of his appointment and before he enters upon the duties of his office, make a bond with good and sufficient sureties, in the sum of five thousand (\$5,000) dollars, payable to the mayor of the city, conditional for the faithful performance of his duties, to be approved by the board of commissioners. In addition to said bond, he shall take usual oath of office and make an additional one in writing stating that he is in every way qualified under the provisions and requirements of this section, and giving fully the positions of private or public trust he has heretofore held, and the length of service under each of said employments or appointments, and that he will not personally be interested in any contract with the city while holding said office.

Art. 110. Such auditor may, with the approval of the board of commissioners, at any time appoint an assistant to act in his stead, and who may discharge the duties of the auditor during

SECTION XIX.

Appointment and Duties of Treasurer.

Art. 95. The board of commissioners shall bi-annually by a majority vote select some bank or person in the city of Waco as a depository or custodian for all the funds of the city, which shall be known as "treasurer" of the city of Waco and such bank or person so selected shall be such depository for two years and until successor has been selected and approved by a majority of the board of commissioners at the expense of the city, for reasons deemed good and sufficient by them, which shall be spread at length on the minutes of said board.

THE CIVIL JURY DOCKET IS SET BY JUDGE McCULLOUGH.

It Includes All Cases to October 20. News of the City and County Tribunals.

The civil jury docket for the October term of the Nineteenth district court was set yesterday morning at 9 o'clock by Judge Tom L. McCullough. The term begins October 6 and lasts for ten weeks. The docket as announced yesterday included cases for the jury docket up to and including October 20. It is as follows:

October 6.
F. J. Pickey vs. I. & G. N. State of Texas vs. Racine-Satley Co.
Grim vs. Walker.
Gaddy vs. Boynton.
Curley vs. S. A. & A. P.
Jennie Lott vs. M. K. & T.
Handle vs. Beasley.
Robertson vs. Hickerson.
Robertson vs. Marx.
Taylor vs. Racine-Satley Co.
McConnell vs. Wright.
McMillan vs. Southwestern Telephone Co.
Rotan Realty Co. vs. Eyerle.
Crossman vs. King.
First State Bank vs. Etheridge, et al.
Freeman vs. Salter.
Jennings vs. Cockroft.

October 13.
Johnson Wanzura vs. Smaltrala.
Bruye vs. Sheer.
Atwood vs. M. K. & T.
Dupree vs. Levinaki.
Dum Summers vs. S. A. & A. P.
Jennings vs. Bradley.
Rose vs. Hays Investment Co.
Kirkpatrick Bros. vs. Matthews.
McJunkin vs. Jones.
Hardwick vs. Hardwick.
Hunt vs. Southern Traction Co.
Jinks vs. Southern Traction Co.
Kinnannon vs. M. K. & T.
Gimaccho Costa & Co. vs. Dupree Commission Co.
Priddle vs. St. L. S. W. Ry. Co.
Ellis vs. Tupper.
Torbett & Germond vs. City of Temple.

October 20.
Holman vs. Turner.
Cox vs. Cox.
E. E. Witt, trustee, vs. Nelson, et al.
Witt, trustee, vs. Harrison.
Baine vs. Outlar. (Preference setting.)

Blackshear vs. Brownsville Herald.
Boyd vs. St. L. S. W.
Hightower vs. St. L. S. W.
Sealey vs. Santa Fe.
Lawrie vs. Southern Traction Co.
Moore vs. Carr.
Barlow vs. Southern Traction Co.

Freeman vs. Gregory.
Dalton vs. Traders Insurance Co.
Dalton vs. Continental Insurance Co.
First National bank vs. Adams.
A2294-Smith vs. M. K. & T.
A2311-Garrett vs. Blackstock.
A2327-Rebrens Drug Co. vs. Ramby.
A2328-Logan vs. Sherman Oil Mill.
A2347-Sheer vs. Anderson.
A2355-Dudw. vs. Southern Traction Co.
A2388-King vs. Western Union.

Patrick and Tyler Held.

Arthur Patrick and Earle Tyler, indicted by the grand jury jointly in two cases charging burglary and in two cases charging theft over \$50, were arrested yesterday. Their bond was fixed at \$500 in each case or \$1,000 for each accused. Patrick and Tyler are charged with being implicated in box car burglaries which occurred at Marx some time ago.

Eddie Hardin, also indicted by the grand jury, charged with being implicated in the robbery of H. C. Harder, gent's furnishing store at Marl, furnished bond.

Clements Case October 20.

The case of T. B. Clements, charged with murder, which was to have been called for trial in the fifty-fourth district court yesterday, was reset for October 20. Also the case of Bonhoefer, charged with being implicated in the murder of John Richey for which Dud Reed is now on trial was reset and will be called again Thursday. The case was a companion of the Reed case and a severance was obtained.

The special venire of seventy-five men called from which to select a jury was excused until that date. The regular jury called for the week was also excused.

FIFTY-FOURTH DISTRICT COURT

Richard I. Munroe, Judge.
R. V. McClain, Clerk.

Trial of Dud Reed, charged with first degree murder, in progress. All evidence will probably be in by noon today, at which time argument will begin.

NINETEENTH DISTRICT COURT.

Tom L. McCullough, Judge.
R. V. McClain, Clerk.

The docket for the term of court which begins October 6, was set yesterday morning. A ten weeks' term will begin on the sixth.

COUNTY COURT.

George N. Denton, Judge.

All cases set for hearing yesterday, the first day of the criminal docket, were allowed to go over. A dismissal was taken in the case of J. Donaldson, charged with theft.

PROBATE COURT.

George N. Denton, Judge.

In the estate of A. McKeechnie, deceased, an order appointing Tom M. Hamilton temporary administrator was set aside and F. E. McLarty was appointed in his stead. McLarty furnished bail in the sum of \$5,000.

JUSTICE COURTS.

Harvey M. Richey, Judge.

Alice Jones, Mamie Lopez, Cora Coleman were fined \$13.55 each for vagrancy, and Fanny Criner, Blanche Pinkey and Alberta Robinson were fined \$14.55 for the same offense.

Sam Marshall and Richard Trotter to gaming and were fined \$23.55 each.

Alfred Mitchner, vagrancy, \$16.30.

E. M. McCane, an affray, \$14.55.

J. J. Padgett, Judge.

J. M. Mahony, an affray, \$15.30.

Ada Owens, disturbing peace, \$16.30.

the emergency thereof and the cost price and approved by the auditor and board of commissioners, which said requisition must be made out and signed and approved in triplicate by said officers, the triplicate to remain with the officer desiring the purchase of the duplicate to be filed with the city auditor, and the original to be delivered to the party from which such purchase is to be made before any purchase shall be made.

Art. 128. All warrants of the city treasurer must be countersigned by the city auditor and he shall keep a register of all such warrants, for what purpose issued, their dates and amounts and the dates of their payment by the treasurer.

Art. 129. He shall require all persons who shall have received any property belonging to the city, or having the disposition or management thereof, to render to him an itemized list from time to time as such audit may demand, statements as to the condition and disposition thereof.

Art. 130. He shall keep a general set of books which shall show all the transactions of the city relating to accounts, contracts, indebtedness of the city and its receipts and disbursements of all kinds, and shall make tabulated

reports of said funds and account monthly for the board of commissioners and at such other times as said board may require.

Art. 131. He shall make quarterly and annual reports to the board of commissioners setting forth all the facts of interest and showing the aggregate amounts received and disbursed out of each fund, the condition of each and every account on the books, the amount of bonded and other indebtedness of the city, together with such other information and suggestions as he may deem proper, or said board may require. This annual report shall be made to include all transactions during the year ending February first of each year and shall be completed and filed with said board on March first, thereafter, and said board shall cause the same to be published in the official newspaper within fifteen days thereafter.

Art. 132. He shall prepare an estimate of all the revenues and expenses of the city and annually furnish same to the board of commissioners at such time as said board may fix by ordinance or resolution from which said board shall carefully make or cause the auditor to make a budget of appropriations to be raised by taxation and set aside for the various expenses of the city government in each branch and department thereof maintained by taxation and to make up all past deficiencies.

Art. 133. He shall carefully keep an oversight of same and see that the expenses of any department do not exceed said budget of appropriations and keep the board of commissioners advised of the condition of said appropriation accounts from time to time.

ROAD ALLOWED VALUATION.

San Benito and Rio Grande Gets \$711,000 on 43 Miles.

Austin, Tex., Sept. 29.—The San Benito and Rio Grande Valley Railroad company was today allowed a valuation of \$711,000 by the railroad commission on forty-three miles of railroad now completed. The road is in operation. The matter was presented to the railroad by Frank Andres, general attorney, and E. E. McLeelan, chief engineer. The valuation approximates \$18,000 per mile.

New M. & T. C. Motor Car Here.

L. A. Linnenburger, superintendent of motor service for the Sunset-Central lines, arrived here last Sunday with the new motor car which has been placed in service between Waco, Marlin and Bremond. The car was brought to Waco from Omaha. It remains in service until car No. 1394, now being constructed, arrives here. The car heretofore used in the Waco-Marlin-Bremond service has been sent to Houston.

Pearl Bailey and James Baker" disturbing peace, \$13.55, and \$13.29, respectively.

1908—H. C. Richey, Waco, 4 cylinder, 50 horse power Cadillac.

Fire Alarm for Police.

Following the instruction of Fire Commissioner John Dollins, a fire alarm gong and box indicator was yesterday installed in the city hall by City Electrician Copley.

It is the purpose of Commissioner Dollins to have the police department informed of every fire alarm, and instructions will be given to have every alarm answered by a squad of police, and in the event the fire is in a section of the city where there is a chance for injuries to occur, that the police ambulance will also respond.

School officials in Beverly, Mass., recently calculated the money gain for their pupils in vocational education. They found that an expenditure of \$800 per boy in industrial training had raised the capitalization of the boy's economic value from \$5,000 to \$15,000 or \$18,000.

TRY RESINOL FREE FOR SKIN TROUBLE

It Stops Itching Instantly and Soon Heals the Worst Eruptions.

The moment Resinol Ointment touches any itching skin, the itching stops and healing begins. With the aid of Resinol Soap, it quickly clears away all trace of eczema, ringworm, pimples, blackheads, or other tormenting, unsightly eruptions, leaving the skin clear and healthy.

Prove at our expense that Resinol will do this for you. Write today to Dept. 17-M, Resinol, Baltimore, Md., and we will send you a liberal trial, by parcel post, with full directions for use.

Resinol has been prescribed by doctors for 18 years. Sold by every druggist.

Cured Pimples and Blackheads.
W. B. Hackett, 629 Golden Gate Ave., San Francisco, writes: "I was bothered for several years by unsightly pimples on my face, as well as blackheads, which were a source of much discomfort and embarrassment. At last I decided to try Resinol Soap and Resinol Ointment. I am happy to say I am entirely rid of the eruptions, and my skin is clear of all disfigurements. I also find that Resinol works wonders when used to cure cold sores, etc."

J. M. Padgett, Judge.
J. M. Mahony, an affray, \$15.30.
Ada Owens, disturbing peace, \$16.30.

FIND CAUSE OF HIGH WATER

It Came High Because a Pipe Under the Barn Floor Sprung a Leak.

After several days of digging and plumbing a leaking water pipe under the cement floor of the barn of a Washington street home was discovered yesterday and the cause of a high water bill was located.

Meters have been put in for all consumers on Austin avenue, Washington street, Barnard street, Jefferson street and Fort avenue, and the meter men are now working on Sanger avenue. As fast as the force of men at work can do this the meters are being put on every consumer in the city, so that the water department can go on a strictly meter basis in the sale of water. Many leaks have been discovered by the meters, and leaks which have been running for a long time in some instances were wasting a lot of water. The pumping capacity of the water plant has been taxed to its limit after year after year. The water department was satisfied that under the flat rate all the water that was being used was not being paid for, and the installation of meters was commenced.

As fast as these meters have been put in many old pipes have been discovered which were buried and forgotten years ago, yet were still connected with the system. The latest discovery was the residence on Washington street, where the testers after a long search, and through a recalculation every three minutes, with the water cut off at every opening that was known. From August 26 to September 27 the meter registered 136,290 gallons. This was more than any other family needed, and a search was commenced for the leak. It was located yesterday in a pipe under the cement floor in the barn.

Another residence on Washington street consumed 58,800 gallons during a month when no one was at home. A leak was found and stopped.

Secretary Fulkerson of the water department is very much gratified at the progress being made in stopping the waste of water through the installation of the meter system.

Electric fixtures at reduced rates.

For a few days we are offering our new stock of fixtures at greatly reduced prices.

Our designs are new and up-to-date. We will pay you to visit our show rooms at once and take advantage of these great bargains. Vesey Electric Co., 608 Austin Street.

TARIFF NEARS COMPLETION

Continued From Page 1.

for the calendar year, can be collected for only ten months of the present year as the law specifies that collection shall not go back of March 1, 1913.

The estimated decrease in the total expenditures of the government for 1915, \$5,000,000 is based on the fact that smaller expenditures are expected for the army and navy establishments.

The balance of the total income of the government as given in the treasury estimates is made up of postal re-

ceipts, internal revenue receipts, the profits from public land sales and other sources of federal income.

Alterations in Original Bill.

In a summary of agreements that have been formally announced from day to day during the conference work the report shows the following alterations of the original Underwood house bill:

Tax rate on incomes above \$75,000 was increased by a graduated scale from 3 per cent to 7 per cent and the income tax exemption reduced from \$4,000 to \$3,000. Articles added to the free list include pig iron, ferro manganese ore, cheap grades of iron, cattle and other foods, wheat, flour, flax, hemp, sugar, refining machinery, school textbooks, and blast machinery, indigo dyes, photographic moving picture films, cement asphalt and many other articles.

A new classification for woolen stockings, gloves and mittens makes a reduction from the house rate on those valued at less than \$1.20 a dozen and an increase on those above. Angora wool and articles made from it were given a higher duty than in the house.

The house rate on silk ribbons and narrow fabrics was increased from 40 to 45 per cent, while the house rates on common paper box boards and paper used for photographic prints were reduced. An increased rate of duty was provided for lithographic views of American scenes and the rate on surface coated papers suitable for covering boxes was increased from 35 to 40 per cent. Reduction in the house duties was made on wearing apparel of cattle or goat skins, fur hats, rough forms of dog and goat skins, camels' hair, press cloth for use in cotton oil mills and through a reclassification, rates will be slightly reduced from those fixed by the house on fancy grades of cotton cloth. The house rate on cotton stockings and half-hose also was reduced.

Reductions in the house rates in the chemical schedule covered perfumed and medicinal soaps, crude chicken, linseed oil, chlorate of potassium, while the house rates were increased on many kinds of acids and on some class of paints. The senate succeeded in reducing the house rates on high power lenses, surveying instruments, telescopes and the like. Most of the senate changes reducing the rates on iron and steel products were approved by the conference committee, making the rates considerably lower on the average than on those of the original house bill.

The tariff on automobiles, fixed by the house at 45 per cent and radically cut by the senate, was finally compromised by making a new classification of automobiles valued below \$2,000 for which a rate of 30 per cent was fixed.

Some of the more important changes agreed to by the conference covered the schedule of agricultural products and provisions. In addition to putting cattle and sheep on the free list, the conference agreed to reductions on oats, butter, beans, extracts of meats, currents, chocolate and other provisions and vegetables.

The 5 per cent rebate in tariff made by the house bill on goods brought in American ships was retained in the conference with the added provision that it should not be so construed as to "abrogate or in any manner impair or affect the provisions of any treaty the United States now has."

The conference also amended that portion of the house bill requiring foreign manufacturers or exporters to submit their books to American customs agents, so that if the exporter

refuses to allow such examination an additional tariff duty of 15 per cent ad valorem can be imposed on his exports.

The conference agreement repeals Section 8 of the Cuban reciprocity treaty, which provided that Cuba should have a preferential rate of 20 per cent on sugar and that the general sugar tariff of the United States should not be reduced below the figures of the Dingley tariff law of 1897.

The section of the house bill which would have thrown out of the civil service the entire force of income tax administrators for a period of two years, was changed by the conference committee. In its new form employees of the internal revenue office in Washington, "below the grade of chief of division," concerned with the income tax, still must be selected under civil service rules. Those outside may be appointed by the commissioner of internal revenue under rules fixed by the secretary of the treasury.

The new provision of the income tax allowing a \$4,000 exemption for a married person provides "that only one deduction of \$4,000 shall be made from the aggregate income of both husband and wife when living together."

First Aid to the Shocked.

The frequency with which accidents from live wires have been occurring in the city recently has caused an investigation by the city engineer into the merits of a machine for resuscitating persons injured by electric shocks. City Engineer Copley will place the matter before the commissioners as soon as he gets reliable information in regard to the machine, and the results obtained by its use in other cities.

NERVOUS DYSPEPSIA, GAS OR INDIGESTION

"PAPE'S DIAPEPSIN" SETTLES SOUR, UPSET STOMACHS IN FIVE MINUTES.

Time it! Pape's Diapepsin will digest anything you eat and overcome a sour, gassy or out-of-order stomach surely within five minutes.

If your meals don't fit comfortably, or what you eat lies like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.

Get from your pharmacist a fifty-cent box of Pape's Diapepsin and take a dose just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, nausea, debilitating headaches, dizziness or intestinal griping. This will all go, and, besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapepsin is a certain cure for out-of-order stomachs, because it takes hold of your food and digests it just the same as if your stomach wasn't there.

Relief in five minutes from all stomach misery is waiting for you at any drug store.

These large fifty-cent boxes contain enough "Pape's Diapepsin" to keep the entire family free from stomach disorders and indigestion for many months. It belongs in your home.

TUBERCULOSIS IS LEADING TYPHOID

VITAL STATISTICS REPORT FOR THE STATE FOR A MONTH.

BIRTHS IN EXCESS OF DEATH

El Paso Reports Death of Two Women Over 100 Years of Age. Report in Full.

Austin, Tex., Sept. 29.—Tuberculosis of the lungs lead the mortality roll in the state for the month of August, according to the report just issued by the state registrar of vital statistics. There were 219 deaths, more than in any previous month. Typhoid fever also came to the front and 167 deaths are attributed to that cause.

Pneumonia caused 53 deaths and pellagra came to the front with 22 deaths. There were 2,342 deaths in all during the month, while the births numbered 5,119, more than two times as many. The greatest number of deaths occurred under 1 year, but the death roll shows that the second greatest number of fatalities was between the ages of 20 and 30 years. These numbered 273.

El Paso county reported the deaths of two women 103 years of age, and Upshur county reported the death of a negro woman 102 years old. The full report follows:

Births.
Alive—White 4,536, black 432. Stillbirths—White 127, black 24; total 5,119, as follows: Males, white 2,313, black 209; no sex given, white 28, black 11; stillbirths, white 127, black 24; total 5,119.

Deaths by Ages.
Under 1 year 314, from 1 to 5 years 197, from 5 to 10 years 60, from 10 to 20 years 174, from 20 to 30 years 273, from 30 to 40 years 245, from 40 to 50 years 186, from 50 to 60 years 198, from 60 to 70 years 206, from 70 to 80 years 163, from 80 to 90 years 73, over 90 years 16, unknown 42; total 2,342.

Leading Causes of Death.
Tuberculosis of the lungs 216, diarrhea and enteritis (under 2 years) 175, stillbirths 122, typhoid fever 107, ill defined organic disease 56, senility 92, cause of death not specified or ill defined 82, Bright's disease 74, all forms of cancer 71, cerebral hemorrhage or apoplexy 60, organic disease of the heart 63, other diseases peculiar to early infancy 45, traumatism by firearms 39, simple peritonitis 25, acute nephritis 24, other diseases of the stomach 33, pellagra 32, purulent infection and septicemia 29, diarrhea and enteritis (2 years and over) 30.

RAINS INTERFERE AT LOTT

The Cotton Yield Will Be Fairly Good, but Probably Under Last Year.

Lott, Tex., Sept. 29.—The recent heavy rains have seriously interfered with gathering cotton. The community has just had the heaviest rain for many months.

The yield of cotton in this immediate country will be fairly good, but with present condition it cannot be told just what the yield will be, though probably somewhat under last year's crop. The price of the staple is good and farmers are well pleased. A public school has been delayed several days on account of extensive repairs to the school building. The building is now complete and school will open Monday morning, September 29, with Prof. Kidd as superintendent, with competent teachers.

The town is still improving. New residences are going up and the air of prosperity is on every hand.

DISSOLVES INJUNCTION.

Judge at Calumet Holds Decision Too Broad.

Calumet, Mich., Sept. 29.—At the conclusion of arguments on the motions to dissolve the temporary injunction he issued a week ago against striking copper miners prohibiting them from picketing and parading, Circuit Judge Tom O'Brien today ruled that the injunction was too broad. He held that the defendants' rights are important and should not be interfered with without a public hearing. He granted the motion for dissolution.

Judge O'Brien declared that the strikers have a right to organize and to make peaceable efforts to persuade others to refrain from working. He said there were three parties whose rights must be protected—the companies, the men who are willing to work, and the strikers. He said he was inclined to issue a restraining order covering only violence and intimidation, but that he did not think it should cover picketing.

The judge further ruled that the complainants, if they desired another injunction, must file a bill of complaints accompanied by affidavits or support the charges and must give the defendant strikers ten days' notice before filing the bill.

The decision is called a notable victory for the western federation of miners.

Clover Seed Rates.
Austin, Tex., Sept. 29.—The railroad commission today announced notice of hearing on readjustment of rates to apply on clover seed transported between points in Texas for October 14.

TELLS OF FEDERAL AID TO THE ROADS

HOUSTON OUTLINES PLAN BEFORE AMERICAN GOOD ROADS CONGRESS.

MUST AVOID MANY ABUSES

Only by Strong Local and State Cooperation Could Government Do Extensive Building.

Detroit, Sept. 29.—Secretary Houston of the United States department of agriculture, in an address before the American Road Congress here today, expressed his approval of the efforts of the organization and expressed the interest of the federal government with reference to road building. He urged good roads for the farmer in preference to great trans-continental highways for automobiles and at the same time he said he did not underestimate the valuable service rendered by automobilists in the propaganda for road building.

"The suggestion of great national trans-continental roads appeals to my imagination as does the suggestion of interstate roads connecting capitals or cities of commercial importance to my logical faculty and to the sense of pleasure that I experience in riding about the country in my friends' automobiles. But that the essential thing to be done is the providing of good roads which shall get products from the community farms to the nearest station and make rural life more profitable, comfortable, pleasurable. I entertain no sort of doubt, and it is obvious that the representatives of the people in congress are like minded. For in making their recent ap-

A BETTER STORE FOR MEN

propriation of a half million dollars for good roads they stipulated that it should be used in improving the condition of post roads with a view to the economy and efficiency of postal delivery and for the transportation of farm products to the market.

Would Better Schools.

"Such roads are equally essential to the establishment and operation of de-cent elementary and secondary schools for the benefit of the country boys and girls. I do not eliminate other things from consideration and I don't underestimate the rights and pleasures of the automobilists and the service they have rendered in the propaganda for road building.

"That the suggestion of federal aid to road building raises grave questions and involves possible dangers, no thoughtful citizen doubts. There are proposals before the public mind which would bankrupt the federal treasury and suggest possible abuses before which those of the worst pork barrel bills of the past would pale into in-

significance. No proposal which does not carry with it the assurance of safeguarding the treasury in this direction seems to me to stand the ghost of a chance of favorable consideration.

"The first practical essentials in the plan of road legislation would seem to be to recognize the states as the smallest unit with which the federal government might deal. This would give relief from the insistent demand that would come from every township and every district in the union for its share of state or federal assistance without reference to the practicability of the undertaking.

Federal and State Co-Operation.
"It would seem that the basic feature would be such co-operation between the states and federal government as would leave with the states the initiative in the selection of roads to receive aid and as much of the immediate construction and maintenance as would be practicable. "It also is reasonably clear that there

must be some automatic check on the demands to be made on congress and that this should be afforded through the requirement that the states and the localities should contribute an amount both for construction and maintenance at least equal to and possibly double that contributed by the federal government."

Other speakers before the congress today included Logan W. Page, president of the American Highway association who condemned what he termed "haphazard issues of long term bonds for highway building." A. W. Campbell, deputy minister of railways and canals in Canada; Wm. D. Schier, chairman Massachusetts state highway commission, and Frank W. Huffman, state highway commissioner of Missouri.

A letter from President Wilson expressed regret because of inability to attend the congress. "Every man who wishes to see this great country made the most of," he wrote, "must sympathize with efforts now being made to weave it together by good roads."

MENINGITIS WILL NOT RECUR

Dr. Steiner States Course of Disease Is About Complete—Urges Precaution, However.

Austin, Tex., Sept. 29.—A recurrence of a meningitis epidemic this year is not anticipated, according to Dr. Ralph Steiner, state health officer. The history of the disease in other places as applied to Texas would show that the course of the disease has been about completed. However, there is a possibility that cases may break out. Dr. Steiner is urging that precautionary measures be taken before preventive steps are necessary. The state department will be prepared this season with serum and vaccine.

Twenty more homes in Waco have pianos today that did not have them last week

This means that 20 more families took advantage of our purchasers' co-operative plan yesterday, saving from \$90 to \$110 by a plan that really saves.

Several of these buyers are paying for their Pianos at the rate of only 16c a day; two are paying only 13c a day—less than Waco's per capita daily car fare.

Surely no family without music need hesitate to place a Piano in their home on such small obligations. This plan is an ideal combination of low price and low terms.

You have your choice of the very best makes of Pianos, such as the Chickering, Emerson, Haines Bros., Goggan, Angelus, Apollo, Foster and Armstrong Player-Pianos.

Do you know the meaning of a Thos. Goggan & Bros. guarantee? The basis of our large volume of business is the best quality Pianos for the least money; and your satisfaction is guaranteed or money positively refunded.

Here at last is a money-saving plan that saves, and 16 cents a day is all you pay on any low-priced upright piano.

It is your fault if we do not make this plain to you. You simply cannot afford to go without a Piano this year and you cannot know all that this plan means to you until you see the quality of our Pianos and compare the prices.

Over 50 Brand New Upright and Grand Pianos on Sale Wednesday

Change Boy Scout Day.

Dallas, Sept. 28.—The management of the Texas State Fair has just announced that the date of the Boy Scout Day has been changed from October 25 to November 1. The change was necessary to give Scoutmaster C. N. Richmond ample time to prepare a more elaborate program. The Scouts will establish a camp near the fair grounds and will give their big parade within the fair grounds. The Texas scoutmaster will form a state organization on this date.

Cotton 14 Cents at Temple.

Temple, Sept. 28.—Cotton attained a new level here yesterday when 14 cents was paid for the best grades by local buyers. To date the local receipts have been 5,170 bales, as compared with 6,953 on the same date as last season, a shortage of 1,783 bales.

DEFENSE CLINGS TO DIPSO MANIA

EVIDENCE FOR REED CLOSES. ARGUMENT BEGINS TODAY.

SPECIALISTS ON THE STAND

Mrs. Dud Reed is Also Called and Tells of Dud's Acts When He Was Drink-Crazed.

As a climax to a mass of evidence which has been deduced in the effort to prove that by heritage and by reason of the long and excessive use of alcoholic liquors the defendant is insane when under the influence of liquor and to show further that on the night that John Richey was murdered and his head severed from the body the defendant was in such an insane condition, the defense in the case of Dud Reed, charged with first degree murder, yesterday introduced the testimony of two physicians.

Digging their deductions into a lengthy recital of the effects of alcoholic beverages upon the descendant of a grandfather and father who used liquor to excess, the defense attempted to prove that Reed had inherited a weakness of mind and a weakness for drink which, when gratified to excess, produced temporary insanity, and that while in such condition by reason of such inheritance, he was incapable of knowing or of remembering acts he might have committed.

Mrs. Dud Reed Testifies. Save two other witnesses, J. C. Kennedy, a school teacher to whom Reed went to school, and Mrs. Lou Reed, wife of the accused man, the physicians were the only witnesses of the day.

With the introduction of this testimony the defense practically ended its case. This morning all that remains to be done by the defense save argument is the introduction of an insanity certificate which is for the purpose of proving that T. D. Reed, grandfather of Dud Reed, was adjudged insane. Following this the state will begin the rebuttal of evidence.

Argument This Afternoon. It is expected this will be completed by noon today and that argument will begin at the afternoon session. Should this be the case the trial will probably be completed and placed in the hands of the jury by Wednesday afternoon.

Kennedy's testimony was to the effect that Dud was a dull boy in school, both inside and outside his books, and that from his best judgment, as a boy, Dud did not understand right from wrong as well as the average person. It has been fifteen years since he was associated with the defendant.

His "Foolish" Acts. Mrs. Reed recited incidents during her married life where the accused had, while under the influence of drink, committed acts which she termed as "foolish." She had known Reed two months when they were married, and did not know of his drinking until nine or ten months after the marriage. She told of his attacking a barbed wire fence with a knife, and of his saying that when restrained he would break his way through the fence again, believing that some one was trying to kill him. After a day's drink, she said, he was not sensible for a week, and that when asked him of the things he had done while drunk he denied them when sober, saying he could not remember any such occurrences.

Dr. Torbett on Dipso mania. For more than two hours yesterday morning Dr. J. W. Torbett, for eighteen years a practicing physician, and who is at present in charge of a sanatorium at Marlin where special attention is given to the treatment of alcoholic diseases and the effect of alcohol on the mental, nervous and physical systems, was on the witness stand. Dr. Torbett was summoned by the defense in the effort to show that craving for alcoholic drink is transmitted by heredity, and that where the grandfather and father of an individual were addicted to the use of such drink, that tendency would be transmitted to their descendants and that in some cases the use of alcohol to excess by forefathers had impaired the mental qualifications of the descendant to such an extent that feeble-mindedness results. His testimony was carried into an exhaustive explanation of the effects resulting from drunkenness when habitual in a family.

Treated Many Cases. Dr. Torbett stated that he had treated several hundred alcoholic cases, had made a study of mental diseases arising from the use of alcohol and had followed up his cases to see how of the disease. He said it was a very interesting study and also an alarming one because of its great increase in such cases. Primarily, he said, the excessive use of alcohol affected the nervous system. It produces fatty degeneration of the cells, causing them to draw up; that it affects the liver, but does not affect the kidneys as much as believed some years ago. On the mental capacity, he said, the use of liquor to excess diminishes the mental powers, and, for this reason, railroad companies and all large public service corporations refuse to employ men who make a habit of drinking. Whether the effects of liquor on the mind may become permanent, he said, depends on the strength of the nervous system.

He Quotes Plutarch. He said the nerve cell is the basis and if an individual inherited weak cells he is more subject to disease than if his nerve cells are unimpaired. Alcohol has a decided effect on descendants, he said, and for that reason the Society of Eugenics is attempting to regulate marriages where either of the contracting parties are subject to the use of alcohol. During his testimony Dr. Torbett said: "One thousand years ago Plutarch said: 'Drunkard begets drunkard.' The state objected to introduction of what authorities might say on the question,

Graham Crackers are wholesome. They are nourishing. They are palatable and appetizing. Just ask your grocer for a package of

NATIONAL BISCUIT COMPANY GRAHAM CRACKERS

and find out how good they are. Give them to the children—they can't get enough of them. Keep a few packages on the pantry shelf for daily use. Always look for the In-er-seal Trade Mark.

10c

and the defense said that his testimony should not be based on what the witness actually knew. Judge Munroe sustained the objection.

"Sins of the Father" Theory. Taking up his testimony, Dr. Torbett said: "From study and experience and observation of cases, my opinion is that the effects of a father's habit to drink weakens the resistance of the nervous cells the same as any other disease, for the cells are the basis of all life. I have treated two or three patients where alcoholism in parents has been predisposed to the offspring. A large percentage of insanity is due to such causes and a large per cent of feeble-mindedness is due to it." In explaining, at state attorney's request, what he meant by feeble-minded persons, he said: "A feeble-minded person is one who is not able to cope with other people in life."

Transition is Gradual. Continuing, he said: "There is a gradual shading between the idiot and the normal man. Hereditary influences have a great deal to do with it. There are different classes all along; the eccentric, the crank, etc. It is a known fact that a great many children are feeble-minded on all subjects but one. In inherited cases this is common, and it is also common that some children of a family may be bright and others dull; that is, one or two children may be affected, while other members of the family are all right. All nervous diseases are transmitted that way."

Hypothetical Question. Completing his statements, Dr. Torbett was asked a hypothetical question by the defense which embodied the various actions of the defendant to which witnesses had testified, testimony relative to family history, testimony in part was: "In a case where a grandfather of a man on father's side indulged in liquor from early manhood all his life, getting drunk from two days to a month at a time; and when 65 or 70 years of age was adjudged insane, the child of that man, drinking from when a young man until death, getting drunk when he was sober; on the mother's side the great grandfather drinking for a number of years and having a wife who had epileptic fits, the grandfather addicted to whiskey, and where it is shown by evidence the descendant is of weak mind, that is, he is 35 years old; his inability to learn and classes by teachers as dull and incapable of learning like the normal child; when 16 or 18 years of age drank to excess and continued to drink for ten or twelve years, and after having drunk for three to four years, you find instances of his conduct such as tying a new suit of clothes around a hog, jumping into a tank of water ten or twelve feet deep, breaking down the door of his house with an axe when he had the key in his pocket, attacking members of his family, cutting pictures from the wall, drawing an open knife across the bed clothes where his brother and his brother's wife lay; when he had two or three drinks, setting fire to a barn; repeating this, trying to set fire to a building; turning the gasoline out of a stove and setting it afire; coming into a house, moving his chair up to a fireplace where there was no fire and saying the fire felt good; at times when not drunk neglecting his crop and setting off by himself for a half day at a time; again taking a horn and blowing it while riding a running horse; while drunk, susceptible to the influences about him so that he would cry when sentimental songs were sung in his presence, and want to go west and fight Indians when wild west tales were told him; borrowing a horse to work when his horse was crippled and working the cripple instead; when a boy taking a gun to shoot rabbits stating the rabbits were eating the chickens; fighting with a barbed wire fence; getting up in the night singing and dancing; going to people's houses at 12 and 1 o'clock at night and wanting to talk business, when it takes a week for one day's drunk to wear off; when told about actions when sober denying them, saying he did not believe he did them for he could not remember them; taking all these things into consideration, state your opinion as to the mental condition of a man of that kind, when under the influence of alcoholic liquor or suffering from the effects of liquor?"

The Prosecution Objects. The state objected to the question on the ground that the hypothesis was not true, especially as to the paternal grandfather. State's Attorney Ottorf in his objection said: "Conceded left the impression that the grandfather's mind was weakened by the use of liquor while the evidence of his son, Tom Reed, was that up to 75 or 82 years of age his father was bright and not weakened mentally, that he lived to be 85 years of age and his mind did not leave him until he was 82 years old, at which time he became senile and childless."

Answers the Question. Without references to dates, Judge Munroe overruled the objection. The witness answered: "We recognize epilepsy as one form of mental disease that is transmitted. Taking into consideration all you have said and the

actions you have described, my opinion is the man was feeble-minded, as his actions were not normal and the evidence given is that he was neither sane nor insane. I don't think there is any doubt that he would not remember what he did. I would not pass upon an individual, but it is possible he would not remember. The question is whether he was feigning or whether true. If his acts were true they were very queer and some would call them crazy. Basing my assumption that the evidence is true, my opinion is that he would be crazy. In some similar instances they are crazy and dangerous. In my opinion, when that individual gets drunk his condition would be due to the use of liquor added to the predisposition and feeble-mindedness to start with."

Draws a Distinction. On examination by the state, Dr. Torbett said: "I can draw a distinction between mere drunkenness and alcoholism. One is temporary and the other affects the brain cells. The weakening of the brain tissues and the quantity of whiskey and kind drunk are two important factors. To express an opinion I would want to know whether he got drunk occasionally or drunk every day. It makes a difference as to the individual. Quinine makes some crazy. Physicians can not by examination of the urine and by excretions and also by reflection the mental capacity. In this case, assuming the instances related in the question of defense to the symptoms are subjective, I did not examine the patient. Senile dementia is not transmitted; it's principally the result of old age and may occur in all people, whether drunkards or not. It's the decay of time. There may be things to hasten it, but when a man is 82 or 83 years old I would not say it was hastened, as it looks like he had lived his time. Also another factor as to inheritance would be whether the child was begotten at the time the father was drunk. I could not pass an opinion as to whether a descendant of a grandfather who got drunk once occasionally, lived in the open, and threw off the effects of whiskey, would be a drunkard."

Dr. Torbett's Admission. State's attorney recited incidents which witnesses for the state said Reed had done and things he had said at the time he was arrested, and in response to a question Dr. Torbett said that these statements were true. Reed knew what he was doing and realized his acts at the time.

Dr. Guy F. Witt, a member of the McLennan County Insanitary board, was the next witness. In response to the hypothetical question of the defense he said: "Taking into consideration his acts as a child, boy and man, and his ancestors' habits, I don't think he would know what he was doing."

MRS. MANGES ESCAPES OPERATION

How She Was Saved From Surgeon's Knife by Lydia E. Pinkham's Vegetable Compound.

Mogadore, Ohio. — "The first two years I was married I suffered so much from female troubles and bearing down pains that I could not stand on my feet long enough to do my work. The doctor said I would have to undergo an operation, but my husband wanted me to try Lydia E. Pinkham's Vegetable Compound first. I took three bottles and it made me well and strong and I avoided a dreadful operation. I now have two fine healthy children, and I cannot say too much about what Lydia E. Pinkham's Vegetable Compound has done for me." — Mrs. LEM MANGES, R. F. D. 10, Mogadore, Ohio.

Why will women take chances with an operation or drag out a sickly, half-hearted existence, missing three-fourths of the joy of living, when they can find health in Lydia E. Pinkham's Vegetable Compound?

For thirty years it has been the standard remedy for female ills, and has restored the health of thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, tumors, irregularities, etc.

If you want special advice write to Lydia E. Pinkham Medicine Co. (consultant) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

EYE STRAIN MAY CAUSE DYSPEPSIA

Says a Noted Physician in the Saturday Evening Post—Glasses Prescribed By Dr. W. B. Georgia Will Give Relief.

Dr. Woods Hutchinson, A. M. M. D., one of the most noted physicians in this country, has the following to say in a recent issue of the Saturday Evening Post relative to eye strain and dyspepsia (indigestion). After dwelling for some time on the subject of dyspepsia (indigestion) and its various causes, the doctor says: "If neither abundance of good food, nor exercise nor rest will relieve your dyspepsia (indigestion), then the probabilities are that you will have to deal with some special disturbance or defect farther down the alimentary canal or entirely outside the digestive system."

"One of the commonest causes of chronic indigestion, or dyspepsia, as you may call it, is due to eye strain, and persistent lack of appetite, or discomfort after eating, or gas on the stomach, or so called gastralgia, will often be completely relieved by the use of glasses. It is not too much

to say that probably one-half of all cases of chronic dyspepsia are due to these three causes—eye strain, bad teeth and catarrhal conditions in the nose and throat. Go to a competent specialist and have these conditions relieved and your dyspepsia and indigestion will often disappear like magic."

If you suspect your eyes of giving you dyspepsia, frontal headache, dizziness, nervousness, pain in the temple and back of head, you can consult no one more competent than Dr. W. B. Georgia. If you need glasses he will tell you so; if you do not need glasses he will advise you to consult your dentist or throat specialist.

To find him look for the big electric spectacle sign—Dr. W. B. Georgia & Co., Optometrists and Lens Grinders—224 Austin—Opposite Manger's—ground floor. Over ten thousand satisfied customers in Waco and McLennan County.

INDIA TEA

Perfect for Iced Tea. Making the Ideal Summer Beverage

ONE TEASPOONFUL MAKES TWO CUPS

Published by the Growers of India Tea

trip be delayed two weeks. This was satisfactory, and a letter having been received from the Dallas Rotarians saying they desired to have the Waco club make a visit there, it was decided to notify them that the visit would be about October 16.

R. S. Lazenby, of the Dr. Pepper company, was the important number of the program for the day. He made an address on carbonated beverages, and discussed his subject in an interesting way, giving much inside history on the manner in which that commercial article has been built up.

The club held its meeting at the New State House at noon, more than thirty members taking luncheon together.

Sir Alfred East Dead. London, Sept. 28.—Sir Alfred East, president of the Royal Society of British Artists, died today. He was born in 1849.

Truck Growers Organize. Bonham, Sept. 28.—The truck growers of Fannin county have organized a Truck Growers association in this city. F. E. Leach is the president. The aim

of this organization is to interest the foreign buyers and ship their product in carload lots. The farmers in this county are producers of hundreds of tons of truck and through this organization they expect to receive better prices for their stuff.

Gomez Will Not Return. Washington, Sept. 28.—Vasquez Gomez, mentioned as a possible candidate in the coming Mexican elections, told friends here today he would not return to Mexico to become a candidate. He is making his home here.

A Telephone Conversation As Heard By The News' Man

"Is this 1132? Well, this is Fyffe—W. C. Fyffe—the East Waco merchant. Yes—Yes—For goodness' sake take my ad out of the paper before tomorrow's issue. Yes, it is a classified, wanting young man and young lady clerks—Mad? No, I'm not mad, but if you had spent the day talking to applicants like I have you wouldn't have much wind left, either. The ad was to have run three days, but I filled the want at 6 o'clock this morning and have had 93 answers since—93 answers. Just thought you might want to tell somebody else that I said it pays to advertise in the News Classified."

—And so the story runs—results, results, results. Every day there is a repetition of this story—somebody delighted at the surprising results of one small Want Ad. Surely there is something you want—want to buy, trade or sell—and have just neglected phoning. Call 1132, either phone, and the Classified young lady will take your ad.

GOOD HOME WITHOUT BUYING
I advertised last week for large close-in home, suitable for rooming house and yet failed to list your property with us, and the result was my client came according to promise to make inspection of my property and I failed to have anything that appealed to them.

Now, it's a shame to let out of town people go away with the money. They will come back when I have something good to show them. Take a few moments and tell us what you have to offer.

This is a business proposition worth considering and that you do not get often.

GROCCERS

CONTRIBUTIONS ARE MADE TO C. P. ZOO

Gifts From Local Enthusiasts and From Wacoans Away From Home Coming In.

That the people of Waco and the state appreciate the gathering together of birds, beasts and reptiles for the amusement and education of the little ones and the grown-ups as well, is being fully demonstrated in the additions coming in rapidly to the Cotton Palace zoo, and being placed by Secretary Seth N. Mayfield. There will be monkeys, alligators, squirrels, rabbits, bears, wolves, snakes of many kinds and hues, peacocks, pheasants and a varied range in the feathered family. The zoo is open at all times to the people, and during the Cotton Palace exposition, November 1 to 15, will be a stopping place for the thousands.

Additions are also being made to the museum, it being intended to establish one of the finest ever assembled. Old relics, curios and antiques in general are being given to the Cotton Palace association. In addition to the zoo, the museum will be a great drawing card.

COTTON PALACE NOTES.

The meteorological exhibit to be installed at the Texas Cotton Palace, Waco, this fall, under the auspices of the United States weather bureau, will include instruments that are used in making observations of temperature, winds, humidity and barometric pressure. This display will be of unusual interest and is something new and novel for an exposition to procure.

Baskets of every nature, made from straw and from feathers and from other things, will be shown at the fall exposition of the Greater 1913 Texas Cotton Palace. This display will be in the women's department and will attract thousands, as the study of baskets is coming into vogue. It is quite a gift to know how to make baskets, and consequently this will be one of the places where the multitude will stop in viewing the myriad of exhibits that will be on display.

Unusual interest is being taken in the cotton modeling contests by the children for the splendid cash prizes to be awarded at this fall's Cotton Palace. It is evident that there will be a display of every conceivable nature on exhibit in competition for the awards. Children from all Texas are invited to send in samples of their handwork in making animals and contours of nations, states and the like in cotton.

Those of an inventive turn of mind will be interested in the large array of the latest appliances in every department at the Cotton Palace this fall. The latest in motors, machinery, office appliances, models and patterns of every description will be shown.

The Texas Cotton Palace at Waco is an all-Texas affair—an institution in fact that is building up the whole of the southwest—and being so recognized is patronized by people from every section of the state and bordering states. Visitors also come from far away points to get an insight into what is doing in Texas in the various lines of pursuits.

Some folks in far away Russia know about the Cotton Palace at Waco, for postal cards showing the buildings have been put in foreign mail and in boxes of cotton being compressed so that when opened after arrival at destination the views are to be found by the purchasers.

It is said that the models for the beautiful Indian girl placards advertising the Greater 1913 Cotton Palace are Waco girls, but be that as it may, no prettier subjects could have been

SOKOLS COMING 300 STRONG

THEY WILL HELP MAKE BOHEMIAN DAY A BIG EVENT.

PRESS DAY ARRANGEMENTS

Committee Named at Last Night's Session of Cotton Palace Directors—Other Committees.

Messrs. M. J. Mazanec and Victor Runata appeared before the directors of the Cotton Palace last night and were given assurance of heartiest support in making Bohemian Day, November 6, the greatest event ever pulled off by this nationality. The committee from the Bohemians were very enthusiastic and stated unhesitatingly that there would be at least double the attendance this year on account of the greater attractions and a congress to be called.

The "Sokols" to the number of about 300 will meet in Waco the day previous to November 5 and engage in athletic stunts and drills for prizes. Athletes from Kansas, Nebraska, Oklahoma and Texas will compete for the cups and cash awards. On Bohemian Day proper, November 6, Professor Simsek of the Chicago University will address the congress or assembly of Bohemians, and at night there will be the Dance Beseda.

Bohemian Booth a Beauty. The Bohemian ladies will also have a magnificently decorated booth at the Cotton Palace this year, with extensive exhibits, more elaborate in detail than ever before.

Present at last night's meeting of the directors were: President W. H. Hoffmann, Asher Sanger, W. T. Abernethy, L. M. Engel, H. Cox, H. S. Forman, T. P. Duncan, W. T. Herlick, W. W. Pryor, Secretary Seth N. Mayfield and Publicity Director M. B. Davis.

W. B. Knight appeared before the directors in behalf of the engraved invitations he is preparing to be sent out to various officials of the state and nation, and to the friends of the purchasers of the same.

Dr. H. B. Stiles appeared before the directors on the question of a good roads day program.

November 14 for Corn Growers. The Corn Growers' Association were given Friday, November 14, as their day. C. P. Bull, of St. Paul, Minn., secretary of the National Corn Growers' Association, will be present on that day, thus guaranteeing great interest and a large attendance of those interested in this branch of agriculture.

Comanche county day was named, same being November 11, occurring on the same date as the Young Men's Business League festivities, which adds greater zest to this day.

The following committee was named to handle Press Day: A. R. McCollum, James Hayes Quarles and George Robinson. These gentlemen will have full charge of the day and will formulate a program of entertainment for the newspaper men of the state who will be Waco's guests.

For Social Events.

Langdon E. Luedde was named as chairman of the committee on balls and dances, to select his own entertainment, and as the request has been made that all social events be deferred to the Cotton Palace season there will be many brilliant functions during the exposition.

C. H. Cox, in behalf of the committee on decorations, reported that the Indian panels designed by Miss Ruby Reed Robinson had been placed and this feature added a tone of loveliness to the general scheme of new embellishments. Mr. Cox also reported that the committee had leading the procession with gold fish sporting about among rocks and moss, the whole to be surrounded with beautiful ferns. G. S. Colman, decorator in charge, has worked out some magnificent panel effects, and the visitors this fall will be more than charmed with the splendid work of the artists.

Request to Merchants. The request will be made of all the merchants of Waco to close their stores at 6 o'clock on the opening day, Saturday, November 1, and to have their petitions will make a thorough house to house campaign with this end in view, that the opening evening may be a record-breaker.

Reports of various committees were heard, showing the progress of the exposition and the different dates. It is expected that the railroads will print thousands of dodgers and carry ads in various papers announcing the reduced railroad rates and acquainting the people thoroughly about the Greater 1913 Cotton Palace.

NEGRO ACTORS FORFEIT BOND.

Four Dusky Card Players Fail to Appear in Court.

The negro comedians who were were raided in their private car Sunday night and carried to calaboose on a charge of gambling failed to appear in court yesterday morning and the sum of \$10 apiece which each had put up for bond was forfeited. Officers expressed the opinion that the comedians might have gotten off free if they had fought the case. The car was legally their private home, in which they ate and slept. The anti-gambling laws do not affect gambling in a private home, so long as the place is not frequented for that purpose.

No Changes in Assessments.

The board of equalization had a busy day yesterday, but no changes in assessments were made. The board is pursuing the policy of letting the original valuations stand in most cases. If a complaint is made that inaccurate measurements of buildings have been taken, the board allows the premises to be remeasured. No reported inaccuracies, however, have been confirmed by the second measurement.

Crash of Motorcycles.

A head-on collision of two motorcycles on Elm street Sunday resulted in considerable damage to the clothes of the riders, but no bodily injuries more serious than bruises. One of the machines was carrying Maurice Myre and B. Hester, the other Howard Barr.

October 1, building 501165 on Washington street, now occupied by Alexander Livers, Stable, commission for any agent securing satisfactory tenant. N. M. Gay, both phones.

WACO SALUTES THE INTERURBAN

ROUSING RECEPTION AWAITS ARRIVAL OF THE FIRST TRAINS.

CELEBRATION BEGINS AT NOON

Departure of Local Delegation for Hillsboro—The Inaugural Event of "Interurban Day."

With the big public demonstration planned for today, marking the formal entry into the city of the new interurban line, the people of Waco will unite in celebrating a new epoch in the history of the fastest growing city in Texas.

All is in readiness for the event. The celebration here is to be held under the combined auspices of the Young Men's Business League and the Chamber of Commerce, acting in conjunction with the Southern Traction company. It is not exclusively a business organization affair, however. The proclamation issued by Chairman W. H. Hoffmann of the Interurban celebration committee and W. V. Crawford, acting for the Young Men's Business League, together with the suggestions made by Mayor Mackey and officers of the Chamber of Commerce, have made it plain that this is to be a "people's celebration" and every citizen is urged to participate in the welcoming demonstration this afternoon.

Gala Day in Waco.

It will be a gala day, an occasion long to be remembered. The arrival of the train carrying the Southern Traction party and their guests, the delegations representing the different cities and towns along the route of the new interurban, will be heralded by the blowing of all the factory whistles, the booming of cannon, the ringing of anvils, the music of a brass band and the cheering of thousands of citizens assembled in the square near the court house. The demonstration is designed not only as a manifestation of the popular belief that the construction of the new line means an important step forward in the advancement of the commercial, industrial and other interests of Waco, but also as a tribute to the men who had the courage, confidence and foresight to plan and carry out the undertaking.

Multitude to Assemble.

That the greatest throng ever assembled in the square will gather this afternoon to participate in the jubilation is a foregone conclusion. The celebration proper will begin when the directors of the two business organizations of Waco, city and county officials, invited guests and the Waco stockholders of the company will depart at noon for Hillsboro in five trains of two cars each. The big party from Waco will participate in the demonstration held in the afternoon in Hillsboro. The delegations are scheduled to leave Hillsboro at 3 o'clock this afternoon in nine two-car trains, arriving here at 5:30 o'clock. The tumultuous outburst of sound planned as the first salute will thunder forth immediately on the arrival of the trains.

Mayor is First Speaker.

The inaugural salute will be inaugurated with a welcoming speech to be delivered by Mayor J. H. Mackey. Other speakers will then be heard. Following the speechmaking the parade will be formed, the business organizations headed by Alexander Smith, president of the Greater Waco Board of Trade, and Ernest Austin, president of the Waco Chamber of Commerce, will lead the procession. The parade will pass through the principal streets of the city. Sheriff Fleming will act as mounted marshal of the parade.

A meeting of the general committee was held yesterday morning, when final details for the celebration of interurban day were perfected. At the meeting were General Chairman W. H. Hoffmann, A. G. Steele, Sam Knight, W. V. Crawford, Perry Duncan and H. Hagedorn.

Hillsboro's Boosters. The Hillsboro delegation that is coming here tonight to attend the celebration of the opening of the interurban is going to be one of the most enthusiastic crowd of boosters that ever invaded Waco. Ernest Austin, the new secretary of the Hillsboro Board of Trade and Boosters' club, last night, discussing the celebration of the opening of this important line of traffic. "The citizens of Hillsboro are proud of the interurban and to them it means closer and more friendly relations between Hillsboro and Waco than have ever before existed."

Will Distribute Lunches. Waxahachie, Sept. 29.—The local commercial club ordered box lunches to be distributed among all visitors and all local citizens who go to Hillsboro tomorrow for the celebration of the opening of the Dallas-Waco interurban. Lunches will be distributed here immediately following the program in connection with the driving of the silver spike by Mayor Prince of Waxahachie.

Deaths and Burials.

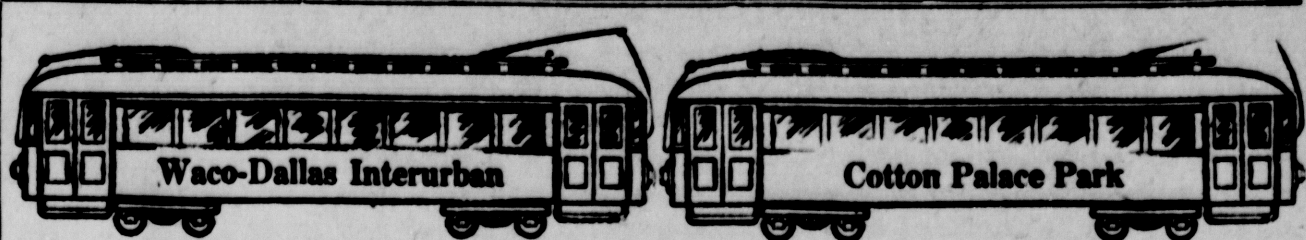

Funeral of Ike Fossett. The funeral of Ike Fossett, who died suddenly Sunday morning at the home of R. A. Lyles, near Speegleville, took place yesterday, the interment being in Speegleville cemetery. He was 45 years old and had been in the employ of Mr. Maner several years. Mr. Fossett was sitting in a chair when stricken with heart failure. He had suffered from cardiac weakness for some time, but his sudden death was not expected. He had been for thirteen years a resident of McLennan county. Mr. Fossett is survived by a sister and two brothers. One of the brothers is a resident of Comanche county, and the other lives in Alaska.

ARRANGEMENTS AT HILLSBORO.

Final Practices Held for Formal Program. Hillsboro, Sept. 29.—Tonight every detail has been completed for the program of a celebration here between 2 and 3 o'clock tomorrow afternoon in honor of the opening of the Waco-Dallas interurban to traffic.

Final touches to the plans came tonight when at 7 o'clock forty women riding astride in a fancy drill practiced on the square under the eye of Joe Cornish, marshal of the day, and the members of both commercial organizations, in uniform and under Major W. E. Jackson, drilled from 8 to 9 o'clock. Meantime the marshals who will have charge of the parade were in conference.

In the parade line-up the post of

NEW MOIRE HAND BAGS

The advance guard of the new Hand Bags for Fall is here. Moire plays an important role, black predominating, but we also show colors such as brown, navy, taupe, Copenhagen, purple and tan. Frames are of nickel, gilt and gun metal, with soft strap handles of silk or leather. Pleated Leather Bags are one of the season's novelties. Soft, pliable leathers in marked contrast to the leather bags of former days. Small bags of leather, in the envelope shade with back strap and handle once again feature. Prices begin at \$1.00 and run up to \$12.50

HOT WELL CO. TO LIQUIDATE

IF MAJORITY DESIRES, STOCK-HOLDERS GET MONEY BACK.

CITY CAME TO THE RESCUE

Water Department Took Over the Well When Boring Operations Had Stopped.

Deciding to go into voluntary liquidation, the directors of the Waco Hot Well Development company yesterday authorized the secretary and the attorney to prepare the necessary papers.

The Waco Hot Well Development company was organized by a number of patriotic citizens who subscribed a fund for the purpose of sinking an abandoned well of the Waco water department to a depth sufficient to strike a flow of very hot water, the hope being that with such a supply of water the city could be made a health resort.

Boring Contract Made.

A very satisfactory boring contract was made with the American Well Development company. The well was sent deeper and a flow of water of 103 to 104 degrees temperature was reached, and hoping to find something warmer the drillers continued boring until the drill was lost in the ground and operations were of necessity stopped. Under a compromise with the drillers and an agreement with the city, the drilling company returned all the money which had been paid to it and the Waco water department took over the well, agreeing to pay something for the expenses of the company in developing the flow of water. This put the development company in possession of its original capital.

Will Return Capital.

For some time there has been a discussion as to what to do with the money. Some wanted it returned, others wanted it used as the nucleus for a fund to establish a sanatorium and

others suggested that the amount be devoted to some of the enterprises fostered by the commercial organizations. It has developed that those who were contributors to the amount of \$10 or \$20 were willing to divert the fund, but those who had contributed \$200 to \$500 were desirous of receiving the money back. At a meeting of directors yesterday morning it was decided that if the consent of a sufficient number of the stockholders can be secured that the company will go into voluntary liquidation and the capital stock returned to each stockholder, according to his pro rata share.

FINDS OLD FRIEND IN CHURCH.

Hopkins Meets Former Teacher as Letter is Being Ordained Priest.

T. B. Hopkins, accompanied by his mother and sister, Mrs. F. E. Hopkins, and Miss Geraldine, have returned from an extended western trip. Mr. Hopkins attended the sessions of the annual convention of the Associated Ad clubs of America in Baltimore. Following the close of the convention he went with Mrs. Hopkins and Miss Hopkins on a pleasure tour, visiting St. Louis, Cincinnati, Philadelphia, Scranton and New York City.

An agreeable surprise awaited Mr. Hopkins in Scranton, Pa. By chance he read in a local newspaper of ceremonies to take place in one of the Catholic churches of Scranton, the occasion being the ordination of J. A. Walsh, formerly of Texas, to the priesthood. Out of curiosity he visited the church and was surprised to find that the central figure of the ceremonies was the Mr. Walsh who had taught him in school here some years ago. He met the new clergyman after the services and tendered his congratulations.

Horses Attacked by Bees.

A pair of horses in a pasture at Twenty-Third and Ethel, while cavorting near a beehive Sunday afternoon, were attacked by the swarm of bees and stung so badly as to place them in a serious condition. The horses belonged to Mrs. M. L. Brewington and sons, the bees to Frank T. West. When the horses were discovered racing about the pasture in a frantic effort to shake off their assailants, Mr. West came to their rescue and gave the horses the attention of a veterinarian, as every part of their bodies was swollen.

A lighthouse on the south coast of the Isle of Wight has been equipped with a revolving light of 15,000,000 candlepower.

LOOSE LEAF GOODS

We carry a complete stock of JONES' IMPROVED LARGE LEAF REPRODUCERS with the J. K. P. VISIBLE INDEX, and the PATENTED "STANDARD" REPRODUCER. Special, forms to order on short notice.
